(2) The lands to be conveyed to the United States by the city of Tacoma are approximately 45 acres owned by the State of Washington Department of Natural Resources located in the Soleduck and Quileute areas within the authorized boundary of Olympic National Park.

Wild Bird Conservation Act of 1992.

TITLE I—WILD EXOTIC BIRD CONSERVATION

16 USC 4901 note.

SEC. 101. SHORT TITLE.

This title may be cited as the "Wild Bird Conservation Act of 1992".

16 USC 4901.

SEC. 102. FINDINGS.

The Congress finds the following:

(1) In addition to habitat loss and local use, the international pet trade in wild-caught exotic birds is contributing to the decline of species in the wild, and the mortality associated with the trade remains unacceptably high.

(2) The United States, as the world's largest importer of exotic birds and as a Party to the Convention, should play a substantial role in finding effective solutions to these problems, including assisting countries of origin in implementing programs of wild bird conservation, and ensuring that the market in the United States for exotic birds does not operate to the detriment of the survival of species in the wild.

(3) Sustainable utilization of exotic birds has the potential to create economic value in them and their habitats, which will contribute to their conservation and promote the maintenance of biological diversity generally.

(4) Utilization of exotic birds that is not sustainable should not be allowed.

(5) Broad international attention has focused on the serious conservation and welfare problems which currently exist in the trade in wild-caught animals, including exotic birds.

(6) Many countries have chosen not to export their wild birds for the pet trade. Their decisions should be respected and their efforts should be supported.

(7) Several countries that allow for the export of their wild birds often lack the means to develop or effectively implement scientifically based management plans, and these countries should be assisted in developing and implementing management plans to enable them to ensure that their wild bird trade is conducted humanely and at sustainable levels.

(8) The major exotic bird exporting countries are Parties to the Convention.

(9) The Convention recognizes that trade in species that are threatened with extinction, or that may become so, should be subject to strict regulation.

(10) The necessary population assessments, monitoring programs, and appropriate remedial measures for species listed in Appendix II of the Convention are not always being undertaken in order to maintain species at levels above which they might become eligible for inclusion in Appendix I of the Convention.

(11) Resolutions adopted pursuant to the Convention recommend that the Parties to the Convention take appropriate measures regarding trade in species of exotic birds that have significantly high mortality rates in transport, including suspension of trade for commercial purposes between Parties when appropriate.

(12) Article XIV provides that the Convention in no way affects the right of any Party to the Convention to adopt stricter domestic measures for the regulation of trade in all species, whether or not listed in an Appendix to the Convention.

(13) The United States prohibits the export of all birds native to the United States that are caught in the wild.

(14) This title provides a series of nondiscriminatory measures that are necessary for the conservation of exotic birds, and furthers the obligations of the United States under the Convention.

The purpose of this title is to promote the conservation of exotic birds by—

SEC. 105. MORATORIA ON IMPORTS OF EXOTIC BIRDS COVERED BY CONVENTION.

(a) IMMEDIATE MORATORIUM.—

(1) ESTABLISHMENT OF MORATORIUM.—The importation of any exotic bird of a species identified as a category B species in the report entitled "Report of the Animals Committee", adopted by the 8th meeting of the Conference of the Parties to the Convention, is prohibited.

(2) TERMINATION OF MORATORIUM.—A species of exotic birds shall be subject to the prohibition on importation established by paragraph (1) until the Secretary, after notice and an opportunity for public comment—

(A) determines that appropriate remedial measures have been taken in the countries of origin for that species, so as to eliminate the threat of trade to the conservation of the species; and

(B) makes the findings described in section 106(c) for the species and includes the species in the list published under section 106(a).

(b) EMERGENCY AUTHORITY TO SUSPEND IMPORTS OF LISTED SPECIES.—

(1) AUTHORITY TO SUSPEND IMPORTS.—The Secretary is authorized to suspend the importation of exotic birds of any species that is listed in any Appendix to the Convention, and if applicable remove the species from the list under section 106(a), if the Secretary determines that—

(A)(i) trade in that species is detrimental to the species,

(ii) there is not sufficient information available on which to base a judgment that the species is not detrimentally affected by trade in that species, or

(iii) remedial measures have been recommended by the Standing Committee of the Convention that have not been implemented; and

(B) the suspension might be necessary for the conservation of the species.

(2) TERMINATION OF SUSPENSION.—A species of exotic birds shall be subject to a suspension of importation under paragraph (1) until the Secretary, after notice and an opportunity for public comment, makes the findings described in section 106(c) and includes the species in the list published under section 106(a).

(c) MORATORIUM AFTER ONE YEAR FOR OTHER SPECIES LISTED IN APPENDICES.—Effective on the date that is one year after the date of the enactment of this Act, the importation of any exotic bird of a species that is listed in any Appendix to the Convention is prohibited unless the Secretary makes the findings described in section 106(c) and includes the species in the list published under section 106(a).

(d) LIMITATION ON NUMBER IMPORTED DURING FIRST YEAR.—Notwithstanding any other provision of this Act, the Secretary shall prohibit the importation, during the 1-year period beginning on the date of the enactment of this Act, of exotic birds of each species that is listed under any Appendix to the Convention in excess of the number of that species that were imported during the most recent year for which the Secretary has complete import data.

SEC. 106. LIST OF APPROVED SPECIES.

16 USC 4905.

(a) LISTING.—

(1) IN GENERAL.—One year after the date of enactment of this Act and periodically thereafter, the Secretary shall, after notice and an opportunity for public comment, publish in the Federal Register a list of species of exotic birds that are listed in an Appendix to the Convention and that are not subject to a prohibition or suspension of importation otherwise applicable under section 105 (a), (b), or (c).

Federal Register, publication.

(2) MANNER OF LISTING.—The Secretary shall list a species under paragraph (1) with respect to—

(A) the countries of origin from which the species may be imported; and

(B) if appropriate, the qualifying facilities in those countries from which the species may be imported.

(3) BASES FOR DETERMINATIONS.—In making a determination required under this subsection, the Secretary shall—

(B) consider the adequacy of regulatory and enforcement mechanisms in all countries of origin for the species, including such mechanisms for control of illegal trade.

(b) CAPTIVE BRED SPECIES.—The Secretary shall include a species of exotic birds in the list under subsection (a) if the Secretary determines that—

(1) the species is regularly bred in captivity and no wild-caught birds of the species are in trade; or

(2) the species is bred in a qualifying facility.

(c) NON-CAPTIVE BRED SPECIES.—The Secretary shall include in the list under subsection (a) a species of exotic birds that is listed in an Appendix to the Convention if the Secretary finds the Convention is being effectively implemented with respect to that species because of each of the following:

(1) Each country of origin for which the species is listed is effectively implementing the Convention, particularly with respect to—

(A) the establishment of a scientific authority or other equivalent authority;

(B) the requirements of Article IV of the Convention with respect to that species; and

(C) remedial measures recommended by the Parties to the Convention with respect to that species.

(2) A scientifically-based management plan for the species has been developed which—

(A) provides for the conservation of the species and its habitat and includes incentives for conservation;

(B) ensures that the use of the species is biologically sustainable and maintained throughout the range of the species in the country to which the plan applies at a level that is consistent with the role of the species in the ecosystem and is well above the level at which the species might become threatened with extinction; and

(C) addresses factors relevant to the conservation of the species, including illegal trade, domestic trade, subsistence use, disease, and habitat loss.

(3) The management plan is implemented and enforced.

(4) The methods of capture, transport, and maintenance of the species minimizes the risk of injury or damage to health, including inhumane treatment.

16 USC 4906.

SEC. 107. QUALIFYING FACILITIES.

(a) DETERMINATION.—Upon submission of a petition under section 110 by any person, the Secretary shall determine whether an exotic bird breeding facility is a qualifying facility. The Secretary shall, from time to time, publish a list of qualifying facilities in the Federal Register.

Federal Register, publication.

(b) CRITERIA.—The Secretary shall determine under subsection (a) that a facility is a qualifying facility for a species of exotic birds if the Secretary finds each of the following:

(1) The facility has demonstrated the capability of producing captive bred birds of the species in the numbers to be imported into the United States from that facility.

(2) The facility is operated in a manner that is not detrimental to the survival of the species in the wild.

(3) The facility is operated in a humane manner.

(4) The appropriate governmental authority of the country in which the facility is located has certified in writing, and the Secretary is satisfied, that the facility has the capability of breeding the species in captivity.

(5) The country in which the facility is located is a Party to the Convention.

(6) All birds exported from the facility are bred at the facility.

(A) importation of any species of exotic birds from one or more countries of origin for the species, if the Secretary determines that—

(i) the findings described in section 106(c) (2), (3), and (4) cannot be made with respect to the species; and

(ii) the moratorium or quota is necessary for the conservation of the species or is otherwise consistent with the purpose of this title; or

(B) the importation of all species of exotic birds from a particular country, if—

(i) the country has not developed and implemented a management program for exotic birds in trade generally, that ensures both the conservation and the humane treatment of exotic birds during capture, transport, and maintenance; and

(ii) the Secretary finds that the moratorium or quota is necessary for the conservation of the species or is otherwise consistent with the purpose of this title.

(b) TERMINATION OF QUOTA OR MORATORIUM.—The Secretary shall terminate a quota or moratorium established under subsection (a) if the Secretary finds that the reasons for establishing the quota or moratorium no longer exist.

(4) this Act, together with a Settlement Contract between the Jicarilla Apache Tribe and the United States, is intended to provide for the full, fair and final resolution of the water right claims of the Tribe, and to secure to the Tribe a perpetual water supply for use on its reservation;

(5) the Jicarilla Apache Tribe may use this water supply outside the boundaries of its reservation consistent with the terms of a Settlement Contract between the Tribe and the United States; and

(6) the Secretary, in accordance with the requirements of section 11(a) of the Act of June 13, 1962 (76 Stat. 96, 99; Public Law 87-483), has determined by hydrologic investigations that sufficient water to fulfill the Settlement Contract is reasonably likely to be available for use in the State of New Mexico under the allocations made in articles III and XIV of the Upper Colorado River Basin Compact and has transmitted such determination to Congress by letter dated February 2, 1989.

An Act

Oct. 23, 1992
[H.R. 5605]

To authorize and direct land ownership consolidation in the Cedar River Watershed, Mt. Baker-Snoqualmie National Forest, Washington.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Cedar River Watershed Land Exchange Act of 1992.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Cedar River Watershed Land Exchange Act of 1992".

SEC. 2. CEDAR RIVER WATERSHED, WASHINGTON.

(a) IN GENERAL.—If the city of Seattle, Washington, agrees to convey lands to the United States in accordance with this section, the Secretary of Agriculture, in exchange for such lands, shall agree to convey to the City the Federal exchange lands.

(b) EXCHANGE FOR CITY LANDS.—

(1) APPRAISAL OF FEDERAL LANDS.—Not later than nine months after the date of enactment of this Act, the Federal exchange lands shall be appraised and the results of the appraisal transmitted to the Secretary and the City.

(2) OFFER OF CITY LANDS AND APPRAISAL.—

(A) CANDIDATE CITY LANDS.—Within 60 days after the receipt of the appraisal under paragraph (1), the City shall submit to the Secretary a list of candidate lands for conveyance to the United States under this section. Such candidate lands shall be selected by the City from the City lands.

(B) ACCEPTABLE CITY LANDS.—Not later than three months after receipt of the list of candidate lands under subparagraph (A), the Secretary shall determine, in the discretion of the Secretary, which of the candidate City lands to accept. Such lands acceptable to the Secretary shall be appraised within 90 days after such determination and the results of the appraisal transmitted to both the Secretary and the City. The Secretary shall accept lands included on such list unless the lands are not valuable for purposes of the National Forest System, including management as contiguous units with other National Forest System lands.

(3) CONSUMMATION OF EXCHANGE OF INITIAL PARCELS.—Not later than two years after the date of enactment of this Act, the Secretary shall transfer to the City parcels of the Federal exchange lands with a total value approximately equal to the value of the City lands the Secretary determines acceptable under paragraph (2). The Secretary may also accept money to equalize the value of the lands involved in the exchange, subject to subsection (f)(2).

(c) EQUALIZATION FOR REMAINING FEDERAL EXCHANGE LANDS.—If the value of the City lands conveyed and money accepted under

subsection (b) is not equal to the value of all of the Federal exchange lands, the following provisions shall apply:

(1) WAIVER BY THE CITY.—In the event the value of the City lands conveyed under subsection (b) is greater than the value of all of the Federal exchange lands, any cash equalization which might otherwise be owed to the City by the United States shall be waived.

(2) IDENTIFICATION OF EQUALIZATION LANDS AND MONEY BY THE CITY.—

(A) IN GENERAL.—In the event the value of the City lands conveyed and money accepted under subsection (b) is less than the value of all of the Federal exchange lands, the City shall, within five years after the date of initial consummation of the exchange under subsection (b), submit to the Secretary a list of lands, an amount of money, or a combination thereof which has in the aggregate a value equal to the difference in value between the City lands exchanged under subsection (b) and the value of all of the Federal exchange lands.

(B) FOREST LANDS.—Any lands included on the list pursuant to subparagraph (A) shall consist only of a tract or tracts of land within or adjacent to national forests in the State of Washington which have been—

(i) mutually identified by the Secretary and the City in advance of their inclusion on the list as acceptable to the Secretary for transfer to the United States;

(ii) appraised in accordance with this section within 90 days after their identification under clause (i); and

(iii) acquired by the City from a willing seller or sellers.

(3) COMPLETION OF EXCHANGE.—Not later than the end of the five-year period specified in paragraph (2)(A), the Secretary shall convey to the City the remaining Federal exchange lands in exchange for the conveyance by the City to the Secretary of lands and money acceptable to the Secretary for transfer to the United States pursuant to paragraph (2).

(d) APPRAISALS.—

(1) FINDING.—The Congress finds that use restrictions on the Cedar River Watershed imposed by Public Law 97-350 (96 Stat. 1661) coupled with the uncertainties surrounding the status of the lands as habitat for the northern spotted owl currently make appraisal of such lands difficult or unfeasible absent specific guidance from Congress.

(2) APPRAISAL ASSUMPTIONS.—(A) Except as otherwise provided by this subsection, lands to be exchanged pursuant to this section shall be appraised by an appraiser mutually acceptable to the City and the United States in accordance with the Uniform Appraisal Standards for Federal Land Acquisitions and section 206(d) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716(d)).

(B) Federal exchange lands shall be appraised for the purposes of this section in a manner that reflects the deed restrictions imposed on the lands by subsection (e) and other applicable laws, rules, and regulations. Both Federal exchange lands and City lands located within Critical Habitat Units for the northern spotted owl (as identified by the United States

Fish and Wildlife Service, January 1992) shall be appraised as if subject to the deed restrictions under subsection (e).

(3) COSTS.—All costs of the appraisals shall be borne by the City.

(4) REQUIREMENT LIMITATION.—After an appraisal of lands for the purposes of this Act is accepted by both the Secretary and the City, such lands may not be appraised again for the purposes of this Act during the seven year period beginning on the date of enactment of this Act.

(e) DEED RESTRICTIONS.—The patent or other instrument of conveyance issued to the City for the Federal exchange lands conveyed under this section shall be restricted to provide the following prohibitions:

(1) The disposal of the lands or harvest of late-successional or old-growth timber, except for any timber sale or salvage sale approved before October 1, 1992, shall be prohibited.

(2) The disposal of land or harvest of timber and the construction of roads, structures, or other developed facilities on any such lands within the area identified as Critical Habitat Unit WA–33 (as identified by the United States Fish and Wildlife Service, January 1992), shall be prohibited except for routine maintenance of existings roads, trails, and drainage structures, and except as necessary to meet minimum requirements for the administration of the area to protect water quality or public health and safety, to maintain existing roads and trails, to help protect biological diversity or threatened or endangered species, or to regenerate old-growth forest ecosystems in second growth areas.

(f) OTHER GENERAL PROVISIONS CONCERNING EXCHANGE.—

(1) LANDS WITH SENSITIVE ENVIRONMENTAL VALUES.—The Secretary may not reject lands suggested for conveyance by the City under this section solely on the basis that such lands contain sensitive environmental values (including but not limited to old-growth forest or threatened or endangered species habitat).

(2) LIMITATION ON AMOUNT OF MONETARY PAYMENT.—In carrying out the exchange of lands under this section, the amount of money paid to the United States under this section may not exceed 25 percent of the total value of the Federal exchange lands.

(3) SISK ACT.—Any money received by the United States pursuant to this section shall be considered money received and deposited pursuant to the Act of December 4, 1967, as amended (Public Law 90–171, 16 U.S.C. 484a, commonly known as the "Sisk Act").

(4) SPECIAL RULE.—Determinations made by the Secretary in carrying out this section shall not be considered as decision-making.

(g) INCLUSION OF LANDS IN APPROPRIATE SYSTEM OR UNIT.—Lands acquired by the United States pursuant to this section shall be added to and become a part of the National Forest System or, as appropriate, such other system or area within which such lands are located and shall be administered as part of such System, unit, or area as provided by section 206(c) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716(c)). If any such lands lie outside the exterior boundaries of a national forest,

the Secretary is hereby authorized and directed to modify the exterior boundaries of such forest to include such lands.

(h) INTERIM MANAGEMENT.—In order to protect the quality of drinking water and other values in the Cedar River Watershed during the period before the land exchange authorized and required by this section is completed, the Secretary of Agriculture shall manage the National Forest System lands within the hydrographic boundaries of the watershed to—

(1) prohibit public access to the watershed, except to—

(A) allow access only for the discharge of official duties related to the management of the Mt. Baker-Snoqualmie National Forest by Federal employees, holders of Forest Service contracts, and agents of the Forest Service; and

(B) allow access by officials of the City of Seattle and others authorized by the City; and

(2) maintain or improve existing characteristics of the watershed, including prohibiting the harvest of late-successional or old-growth timber, except for any timber sale or salvage sale approved before October 1, 1992.

(i) DEFINITIONS.—For the purposes of this section:

(1) CITY.—The term "City" means the city of Seattle, Washington.

(2) CITY LANDS.—The term "City lands" means approximately 17,587 acres of lands eligible to be conveyed by the City under this section, as generally described in "Cedar River Land Exchange: City of Seattle Water Department Offered Lands", dated September 1, 1992.

(3) EQUALIZATION LANDS.—The term "equalization lands" means any lands conveyed to the United States under subsection (c)(2) for the purpose of equalizing the difference in value between the City lands accepted by the Secretary under subsection (b) and the Federal exchange lands.

(4) FEDERAL EXCHANGE LANDS.—The term "Federal exchange lands" means the approximately 16,963 acres of lands owned by the United States located in the Cedar River Watershed in King County, Washington, as generally depicted on a map entitled "Cedar River Exchange-Forest Service Selected Lands" September 1, 1992.

[H.J. Res. 353]

Designating the week beginning January 3, 1993, as "Braille Literacy Week".

Whereas Braille, the system of dots used by the blind to read and write, is a truly elegant and effective medium of literacy;
Whereas blind and visually impaired individuals must be afforded the opportunity to achieve literacy so that they can compete in employment, succeed in education, and live independent, fruitful lives;
Whereas recording devices, reading machines such as the optacon, and computer-screen access programs have enabled blind individuals to gain access to a wide variety of printed material but cannot replace a medium such as Braille which allows a blind individual to read and write independently;
Whereas the teaching of Braille has been woefully neglected over the past several decades; and
Whereas many States have acted or are acting to ensure that blind and visually impaired school age students are taught Braille if it is judged the appropriate medium to provide such students with the opportunity to achieve literacy: Now, therefore, be it

Supporting the planting of 500 redwood trees from California in Spain in commemoration of the quincentenary of the voyage of Christopher Columbus and designating the trees as a gift to the people of Spain.

Oct. 23, 1992
[H.J. Res. 529]

Whereas the voyage of Christopher Columbus across the Atlantic Ocean in 1492 established permanent communications between the Eastern and the Western Hemispheres and launched the greatest migration of human beings in the history of the world;

Whereas such voyage stimulated the first circumnavigation of the globe and other explorations that gave humankind its first genuine understanding of the Earth's geography;

Whereas such voyage inaugurated a new world that led to the formation of the United States; and

Whereas the quincentenary of such voyage is an appropriate time for its commemoration by the planting of a grove of redwood trees from California on the northwest coast of Spain, facing the Atlantic Ocean, so that during the next 5 centuries, as the trees grow from seedlings to their full noble grandeur in the soil of the Eastern Hemisphere, they will give to each individual who visits them an experience of the awesome potentials and wondrous beauty of Creation and represent the hope for a future of growing friendship among the peoples of the Eastern and the Western Hemispheres: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That—

(1) the Congress supports the planting of 500 redwood trees from California on the northwest coast of Spain that is being organized by persons in the United States in cooperation with agencies of the Government of Spain in commemoration of the quincentenary of the voyage of Christopher Columbus to the New World; and

(2) such trees, which will be planted in December 1992 on land set aside for that purpose by authority of the Council of Galicia and the community of Montes de San Xoan in the Province of Pontevedra and supervised by the forestry service

of such Province, are designated as a gift to the people of Spain made in the name of the people of the United States.

Designating November 30, 1992, through December 6, 1992, as "National Education First Week".

Oct. 23, 1992
[H.J. Res. 543]

Whereas the future economic success and democratic vitality of the United States depend primarily on the Nation's ability to provide a world class education from kindergarten through 12th grade;

Whereas all people of the United States have the right to a fulfilling, free, and safe elementary and secondary education that will enable them to be productive, skilled, and literate citizens;

Whereas the United States faces an unprecedented education crisis in which students fail to graduate from high school at a rate of 3,000 students a day (or more than 1,000,000 students a year) for the general population, and 46 percent for Black and Hispanic students;

Whereas 26,000,000 people in the United States are functionally illiterate, and only 40 percent of the Nation's students are able to solve math problems requiring 2 or more steps;

Whereas international competitors are outpacing the United States in preparing their students for the 21st century, as evidenced by data indicating that a Japanese student spends 30 percent more time in school than a student in the United States and that Japan has a literacy rate of almost 98 percent;

Whereas the education crisis of the United States places great strains on the Nation's economic, social, and political fabric, as evidenced by data indicating that 80 percent of prisoners are high school dropouts, 77 percent of college graduates (but only 37 percent of individuals with not more than an 8th grade education) voted in the 1988 presidential election, and only 3 percent of the Nation's high school graduates can understand distinctions among employee benefits plans;

Whereas the Nation's education crisis has reached such damaging proportions that only a coordinated, long-term effort by all sectors of the United States, including business, government, media, labor, and educators, can adequately address the challenge;

Whereas the media, including the television networks, the motion picture studios, and the cable television networks, are powerful tools to influence and arouse the public to a better understanding of the scope and severity of the education crisis, as well as to potential grassroots and legislative solutions to the crisis;

Whereas the commitment of the television networks to promote "Education First Week" represents the single greatest commitment of broadcast resources in the history of the television medium to address a national problem; and

Whereas "Education First Week" presents a unique opportunity to mobilize national and local political and public awareness through the media and is a significant step in confronting the Nation's education crisis: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That November 30, 1992, through December 6, 1992, is designated as "National Education First Week", and the President is authorized and requested to issue a proclamation calling on the people of the United States to observe the week with appropriate ceremonies and activities.

Designating May 2, 1993, through May 8, 1993, as "National Walking Week".

Oct. 23, 1992
[H.J. Res. 547]

Whereas medical authorities have established that walking—

(1) powerfully protects against high blood pressure, cholesterol problems, and other factors that can contribute to heart disease;

(2) protects against adult onset (Type II) diabetes;

(3) builds strong bones and protects against osteoporosis, the weak-bone disease that afflicts millions of older women;

(4) probably offers protection against several forms of cancer that are believed to be preventable through regular and moderate exercise; and

(5) is a safe and dependable way for millions of overweight people to lose weight without stringent dieting;

Whereas the failure to regular exercise such as walking has been identified as the single greatest risk factor for heart disease;

Whereas the designation of "National Walking Week" will help promote the issue of pedestrian access and safety;

Whereas areas of America are becoming inaccessible or unsafe for walkers, so the benefits of this activity are being blocked;

Whereas people should be able to walk anywhere in their community, within reason; and

Whereas walking encourages community spirit and safety: Now, therefore, be it

(b) PURPOSES.—It is the purpose of this Act to—

(1) improve science and technical education at associate-degree-granting colleges;

(2) improve secondary school and postsecondary curricula in mathematics and science;

(h) TERMINATION OF COMMISSIONS.—Each commission shall be terminated after the stockpile located in that commission's State has been destroyed.

SEC. 173. EVALUATION OF ALTERNATIVE TECHNOLOGIES.

(a) REPORT.—Not later than December 31, 1993, the Secretary of the Army shall submit to Congress a report on the potential

alternatives to the use of the Army's baseline disassembly and incineration process for the disposal of lethal chemical agents and munitions. The report shall include the following:

(1) An analysis of the report of the Committee on Alternative Chemical Demilitarization Technologies of the National Research Council of the National Academy of Sciences.

(2) Any recommendations that the National Academy of Sciences makes to the Army regarding the report of that committee, together with the Secretary's evaluation of those recommendations.

(3) A comparison of the baseline disassembly and incineration process with each alternative technology evaluated in the report of such committee that the National Academy of Sciences recommends for use in the Army Chemical Stockpile Disposal Program, taking into consideration each of the following factors:

(A) Safety.

(B) Environmental protection.

(C) Cost effectiveness.

(4) For each alternative technology recommended by the National Academy of Sciences, the date by which the Army could reasonably be expected to systematize, construct, and test the technology, obtain all necessary environmental and other permits necessary for using that technology for the disposal of lethal chemical agents and munitions, and have the technology available for full-scale chemical weapons destruction and demilitarization operations.

(5) A description of alternatives to incineration that are being developed by Russia for use in its chemical demilitarization program and an assessment of the extent to which such alternatives could be used to destroy lethal chemical weapons in the United States inventory of such weapons.

(7) In any case in which the criteria specified in section 174 are met, notification that the Secretary intends to implement an alternative technology disposal process at a low-volume site.

(b) LIMITATION.—(1) Except as provided in paragraphs (2) and (3), the Secretary of the Army may not commence site preparation for, or construction of, a facility for disassembly and incineration of chemical agents until the report required under subsection (a) is submitted to Congress.

(2) The limitation in paragraph (1) does not apply to any facility for disassembly and incineration of chemical agents (of the eight such facilities identified in the Army Chemical Stockpile Disposal Program) at which site preparation or construction has commenced before the date of the enactment of this Act.

(3) Except as provided in section 175, the limitation in paragraph (1) does not apply to the following:

(A) Facility design activities.

(B) The obtaining of environmental permits.

(C) Project planning.

(D) Procurement of equipment for installation in a facility.

(E) Dual purpose depot support construction projects which are needed to ensure the continuing safe storage of chemical

weapons stocks and their ultimate disposal regardless of the technology employed.

50 USC 1521 note.

SEC. 174. ALTERNATIVE DISPOSAL PROCESS FOR LOW-VOLUME SITES.

(a) REQUIREMENT FOR ALTERNATIVE PROCESS.—If the date by which chemical weapons destruction and demilitarization operations can be completed at a low-volume site using an alternative technology process evaluated by the Secretary of the Army falls within the deadline established by the amendment made by section 171 and the Secretary determines that the use of that alternative technology process for the destruction of chemical weapons at that site is significantly safer and equally or more cost-effective than the use of the baseline disassembly and incineration process, then the Secretary of the Army, as part of the requirement of section 1412(a) of Public Law 99–145, shall carry out the disposal of chemical weapons at that site using such alternative technology process. In addition, the Secretary may carry out the disposal of chemical weapons at sites other than low-volume sites using an alternative technology process (rather than the baseline process) after notifying Congress of the Secretary's intent to do so.

(b) APPLICABILITY OF CERTAIN PROVISIONS OF SECTION 1412.—Subsections (c), (e), (f), and (g) of section 1412 of Public Law 99–145 (50 U.S.C. 1521) shall apply to this section and to activities under this section in the same manner as if this section were part of that section 1412.

50 USC 1521 note.

SEC. 175. REVISED CHEMICAL WEAPONS DISPOSAL CONCEPT PLAN.

(a) REVISED PLAN.—If, pursuant to section 174, the Secretary of the Army is required to implement an alternative technology process for destruction of chemical weapons at any low-volume site, the Secretary shall submit to Congress a revised chemical weapons disposal concept plan incorporating the alternative technology process and reflecting the revised stockpile disposal schedule developed under section 1412(b) of Public Law 99–145 (50 U.S.C. 1521(b)), as amended by section 171. In developing the revised concept plan, the Secretary should consider, to the maximum extent practicable, revisions to the program and program schedule that capitalize on the changes to the chemical demilitarization schedule resulting from the revised stockpile elimination deadline by reducing cost and decreasing program risk.

(b) MATTERS TO BE INCLUDED.—The revised concept plan should include—

(1) life-cycle cost estimates and schedules; and

(2) a description of the facilities and operating procedures to be employed using the alternative technology process.

(c) APPLICABILITY OF CERTAIN PROVISIONS OF SECTION 1412.—Subsection (c) of section 1412 of Public Law 99–145 (50 U.S.C. 1521) shall apply to the revised concept plan in the same manner as if this section were part of that section 1412.

(d) SUBMISSION OF REVISED PLAN.—If the Secretary is required to submit a revised concept plan under this section, the Secretary shall submit the revised concept plan not later than 180 days after the date on which the Secretary submits the report required under section 173.

(e) LIMITATION.—If the Secretary is required to submit a revised concept plan under this section, no funds may be obligated for procurement of equipment or for facilities planning and design activities (other than for those preliminary planning and design

activities required to comply with subsection(b)(2)) for a chemical weapons disposal facility at any low-volume site at which the Secretary intends to implement an alternative technology process until the Secretary submits the revised concept plan.

SEC. 176. REPORT ON DESTRUCTION OF NONSTOCKPILE CHEMICAL MATERIAL.

(a) REPORT REQUIRED.—(1) Not later than February 1, 1993, the Secretary of the Army shall submit to Congress a report setting forth the Army's plans for destroying all chemical warfare material of the United States not covered by section 1412 of the Department of Defense Authorization Act, 1986 (50 U.S.C. 1521), that would be required to be destroyed if the United States became a party to a chemical weapons convention described in paragraph (2).

(2) The chemical weapons convention referred to in paragraph (1) is a chemical weapons convention that is substantially the same as the final draft of the proposed international Chemical Weapons Convention (CWC) tabled by the Chairman of the United Nations Conference on Disarmament Ad Hoc Committee on Chemical Weapons on June 22, 1992 (CD/CW/WP.400/Rev.1).

(7) For the chemical warfare materials that cannot be destroyed in place or on site, a description of the means to be used for transporting the materials to disposal facilities.

(8) An estimate of the cost of destroying such chemical warfare materials and facilities.

(9) An estimate of the time that will be necessary to destroy such chemical warfare materials and facilities and the Sec-

retary's determination of the likelihood that such materials and facilities can be destroyed by December 31, 2004.

(10) A determination as to whether it is a realistic option to transport chemical agents and munitions currently stored at low-volume disposal sites to other locations for destruction instead of destroying those munitions at those sites, taking into consideration safety, cost effectiveness, and the potential obligations of the United States under a chemical weapons convention to transport substantial quantities of chemical warfare munitions and materials not in the United States stockpile of lethal chemical agents and munitions to various locations for destruction.

SEC. 177. PHYSICAL AND CHEMICAL INTEGRITY OF THE CHEMICAL WEAPONS STOCKPILE.

(a) REPORT REQUIRED.—Not later than May 1, 1993, the Secretary of the Army shall submit to Congress a report on the physical and chemical integrity of the existing chemical weapons that are contained in the chemical weapons stockpile of the United States and are stored within the eight chemical weapons storage sites within the continental United States.

(5) A discussion of actions that could be taken to minimize or eliminate the risks identified pursuant to paragraphs (1) through (4).

50 USC 1521 note.

SEC. 178. SENSE OF CONGRESS CONCERNING INTERNATIONAL CONSULTATION AND EXCHANGE PROGRAM.

It is the sense of Congress that the Secretary of Defense, in consultation with the Secretary of State, should establish, with other nations that are anticipated to be signatories to an international agreement or treaty banning chemical weapons, a program under which consultation and exchange concerning chemical weapons disposal technology could be enhanced. Such a program shall be used to facilitate the exchange of technical information and advice concerning the disposal of chemical weapons among signatory nations and to further the development of safer, more cost-effective methods for the disposal of chemical weapons.

SEC. 192. POLICY.

It is the policy of the United States—

(1) to encourage, to the maximum extent practicable, nondefense commercial firms to use Government-owned, contractor-operated ammunition manufacturing facilities of the Department of the Army;

(2) to use such facilities for supporting programs, projects, policies, and initiatives that promote competition in the private sector of the United States economy and that advance United States interests in the global marketplace;

(3) to increase the manufacture of products inside the United States that, to a significant extent, are manufactured outside the United States;

(4) to support policies and programs that provide manufacturers with incentives to assist the United States in making more efficient and economical use of Government-owned industrial plants and equipment for commercial purposes;

(5) to provide, as appropriate, small businesses (including socially and economically disadvantaged small business concerns and new small businesses) with incentives that encourage those businesses to undertake manufacturing and other industrial processing activities that contribute to the prosperity of the United States;

(6) to encourage the creation of jobs through increased investment in the private sector of the United States economy;

(7) to foster a more efficient, cost-effective, and adaptable armaments industry in the United States;

(8) to achieve, with respect to armaments manufacturing capacity, an optimum level of readiness of the defense industrial base of the United States that is consistent with the projected threats to the national security of the United States and the projected emergency requirements of the Armed Forces of the United States; and

(9) to encourage facility contracting where feasible.

(4) To provide for the reemployment and retraining of skilled workers who, as a result of the closing of such facilities, are idled or underemployed.

(5) To contribute to the attainment of economic stability in economically depressed regions of the United States where there are Government-owned, contractor-operated ammunition manufacturing facilities of the Department of the Army.

(6) To maintain in the United States a work force having the skills in manufacturing processes that are necessary to meet industrial emergency planned requirements for national security purposes.

(7) To be a model for future defense conversion initiatives.

(8) To the maximum extent practicable, to allow the operation of Government-owned, contractor-operated ammunition manufacturing facilities of the Department of the Army to be rapidly responsive to the forces of free market competition.

(b) SENSE OF CONGRESS.—It is the sense of Congress—

(1) that the Secretaries of the military departments should ensure that in the future the Purple Heart is awarded without hesitation to members of the Armed Forces killed or wounded by friendly fire while actively engaged with the enemy; and

(2) that the Secretaries of the military departments should award the Purple Heart in each case of a member of the Armed Forces killed or wounded on or after December 7, 1941, by friendly fire while actively engaged with the enemy which is known to the Secretary or for which an application is made to the Secretary in such a manner as the Secretary requires.

(D) programs that test whether a non-residential, community based youth service corps can engender in young men and women a commitment to civic responsibility and involvement in their communities;

(E) programs that test whether such non-residential corps permit young people who have received military-based training to use their skills and knowledge to improve their communities; and

(F) programs that test whether retired, discharged, or inactive members and former members of the Armed Forces can play a meaningful role in service-learning by acting as mentors, teachers, counselors and role models.

Subtitle A—Burdensharing

SEC. 1301. OVERSEAS BASING ACTIVITIES.

(a) FUNDING REDUCTIONS.—(1)(A) The total amount appropriated to the Department of Defense for operation and maintenance and for military construction (including NATO Infrastructure) that is obligated to conduct overseas basing activities during fiscal year 1993 may not exceed the amount equal to the baseline for fiscal year 1993 reduced by $500,000,000.

(B) For purposes of subparagraph (A), the baseline for fiscal year 1993 is the sum of the amounts of the overseas funding estimates specified for such year for Operation and Maintenance; Family Housing, Operations; Family Housing, Construction; and Military Construction (including NATO Infrastructure) set forth on page 8 of the report of the Department of Defense dated January 1992, and entitled "Amended FY 1992/FY 1993 Biennial Budget Estimates for Defense Overseas Funding and Dependent Overseas Funding".

(2) It is the sense of Congress that the amounts obligated to conduct overseas basing activities should decline significantly in fiscal years 1994, 1995, and 1996 as—

(A) the number of United States military personnel stationed overseas is reduced in conformance with the provisions of section 1302 and the amendment made by section 1303; and

(B) the countries to which subsection (e)(1) and (e)(2) apply assume an increased share of the costs of United States military installations in those countries.

(b) DEFINITION.—In this section, the term "overseas basing activities" means the activities of the Department of Defense for which funds are provided through appropriations for operation and maintenance, including appropriations for family housing operations, and for military construction (including family housing construction and NATO Infrastructure) for the payment of costs for Department of Defense overseas military units and the costs for all dependents who accompany Department of Defense personnel outside the United States.

(c) OFFSETS.—Reductions for purposes of subsection (a) in obligations of appropriated funds for overseas basing activities may be offset by either or a combination of the following:

(1) Increase in the level of host-nation support due to agreements reached under subsection (e) or otherwise.

(2) Accelerated withdrawal of United States forces or equipment under the provisions of section 1302 and the amendment made by section 1303.

(d) ALLOCATIONS OF SAVINGS.—The savings realized as a result of the reductions for purposes of subsection (a) will be allocated for operation and maintenance and military construction activities

of the Department of Defense at military installations and facilities located inside the United States.

(e) DEFENSE BURDENSHARING AGREEMENTS FOR INCREASED HOST NATION SUPPORT.—(1) In order to achieve additional savings in fiscal year 1994 and in future fiscal years, the President should enter into a revised host-nation agreement with each foreign country described in paragraph (3)(A).

(2) For purposes of paragraph (1), a revised host-nation agreement is an agreement under which such foreign country, on or before September 30, 1994—

(A) assumes an increased share of the costs of United States military installations in that country, including the costs of—

(i) labor, utilities, and services;

(ii) military construction projects and real property maintenance;

(iii) leasing requirements associated with United States military presence; and

(iv) actions necessary to meet local environmental standards;

(B) relieves the Armed Forces of the United States of all tax liability that, with respect to forces located in such country, is incurred by the Armed Forces under the laws of that country and the laws of the community where those forces are located; and

(C) ensures that goods and services furnished in that country to the Armed Forces of the United States are provided at minimum cost and without imposition of user fees.

(3)(A) Except as provided in subparagraph (B), paragraph (1) applies with respect to—

(i) each country of the North Atlantic Treaty Organization (other than the United States); and

(ii) each other foreign country with which the United States has a bilateral or multilateral defense agreement that provides for the assignment of combat units of the Armed Forces of the United States to permanent duty in that country or the placement of combat equipment of the United States in that country.

(B) Paragraph (1) does not apply with respect to—

(i) a foreign country that receives assistance under section 23 of the Arms Export Control Act (22 U.S.C. 2673) (relating to the foreign military financing program) or under the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2346 et seq.); or

(ii) a foreign country that has agreed to assume, not later than September 30, 1996, at least 75 percent of the non-personnel costs of United States military installations in that country.

SEC. 1314. REPORT ON POSSIBLE REVISIONS TO THE NORTH ATLANTIC TREATY.

(a) FINDINGS.—The Congress finds that—

(1) when the North Atlantic Treaty was signed in 1949, the clear military threat to the security of Western Europe was the Soviet Union and its allies in Eastern Europe;

(2) since 1949 it has been clearly understood by the people of the Western World that the primary mission of NATO was to deter an attack from the Soviet Bloc;

(3) the dramatic changes in Europe since the fall of the Berlin Wall in 1989, and the subsequent dissolution of the Warsaw Pact and the Soviet Union have fundamentally changed the security situation in Europe;

(4) one of the consequences of the breakdown of 40 years of Communist rule in Eastern Europe and the former Soviet Union has been ethnic conflict throughout the region, particularly in the Balkans and the Republics of the former Soviet Union;

(5) those fundamental changes in the security threats facing NATO member nations have caused confusion concerning the mission of NATO in the post-cold war world and the role of NATO military forces outside of the NATO Theater, particularly in the former Soviet Union;

(6) if NATO is to continue to be relevant to the security interests of Western Europe and North America through the 1990's and beyond, the alliance's mission must be recrafted in order to enable it to address common transatlantic security concerns, including those beyond NATO's geographic boundaries; and

(7) a fundamental review of the North Atlantic Treaty is necessary, in light of the new security situation in Europe.

(b) REPORT.—Not later than April 1, 1993, the President shall submit to Congress a report on the North Atlantic Treaty of 1949. The report shall include— President.

(1) a detailed analysis of the forseeable threats to the security of NATO member nations;

(2) a determination whether the North Atlantic Treaty of 1949 should be revised to meet the future challenges to peace and security; and

(3) the extent to which the NATO charter permits the use of NATO forces for peacekeeping purposes, given the steadily increased use of military forces for such purposes, and the range of missions that should be considered for such peacekeeping to protect the interests of member nations

Subtitle C—Matters Relating to the Former Soviet Union and Eastern Europe

SEC. 1321. NUCLEAR WEAPONS REDUCTION. 22 USC 5901 note.

(a) FINDINGS.—The Congress makes the following findings:

(1) On February 1, 1992, the President of the United States and the President of the Russian Federation agreed in a Joint Statement that "Russia and the United States do not regard each other as potential adversaries" and stated further that, "We will work to remove any remnants of cold war hostility, including taking steps to reduce our strategic arsenals".

(2) In the Treaty on the Non-Proliferation of Nuclear Weapons, in exchange for the non-nuclear-weapon states agreeing not to seek a nuclear weapons capability nor to assist other non-nuclear-weapon states in doing so, the United States agreed to seek the complete elimination of all nuclear weapons worldwide, as declared in the preamble to the Treaty, which states that it is a goal of the parties to the Treaty to "facilitate the cessation of the manufacture of nuclear weapons, the liquidation of all their existing stockpiles, and the elimination from national arsenals of nuclear weapons and the means of their delivery" as well as in Article VI of the Treaty, which states that "each of the parties to the Treaty undertakes to pursue negotiations in good faith on effective measures relating to the cessation of the nuclear arms race at an early date and to nuclear disarmament".

(3) Carrying out a policy of seeking further significant and continuous reductions in the nuclear arsenals of all countries, besides reducing the likelihood of the proliferation of nuclear weapons and increasing the likelihood of a successful

extension and possible strengthening of the Treaty on the Non-Proliferation of Nuclear Weapons in 1995, when the Treaty is scheduled for review and possible extension, has additional benefits to the national security of the United States, including—

(A) a reduced risk of accidental enablement and launch of a nuclear weapon, and

(B) a defense cost savings which could be reallocated for deficit reduction or other important national needs.

(4) The Strategic Arms Reduction Talks (START) Treaty and the agreement by the President of the United States and the President of the Russian Federation on June 17, 1992, to reduce the strategic nuclear arsenals of each country to a level between 3,000 and 3,500 weapons are commendable intermediate stages in the process of achieving the policy goals described in paragraphs (1) and (2).

(5) The current international era of cooperation provides greater opportunities for achieving worldwide reduction and control of nuclear weapons and material than any time since the emergence of nuclear weapons 50 years ago.

(6) It is in the security interests of both the United States and the world community for the President and the Congress to begin the process of reducing the number of nuclear weapons in every country through multilateral agreements and other appropriate means.

(7) In a 1991 study, a committee of the National Academy of Sciences concluded that: "The appropriate new levels of nuclear weapons cannot be specified at this time, but it seems reasonable to the committee that U.S. strategic forces could in time be reduced to 1,000–2,000 nuclear warheads, provided that such a multilateral agreement included appropriate levels and verification measures for the other nations that possess nuclear weapons. This step would require successful implementation of our proposed post-START U.S.-Soviet reductions, related confidence-building measures in all the countries involved, and multilateral security cooperation in areas such as conventional force deployments and planning.".

(b) UNITED STATES POLICY.—It shall be the goal of the United States—

(1) to encourage and facilitate the denuclearization of Ukraine, Byelarus, and Kazakhstan, as agreed upon in the Lisbon ministerial meeting of May 23, 1992;

Treaties.

(2) to rapidly complete and submit for ratification by the United States the treaty incorporating the agreement of June 17, 1992, between the United States and the Russian Federation to reduce the number of strategic nuclear weapons in each country's arsenal to a level between 3,000 and 3,500;

(3) to facilitate the ability of the Russian Federation, Ukraine, Byelarus, and Kazakhstan to implement agreed mutual reductions under the START Treaty, and under the Joint Understanding of June 16–17, 1992 between the United States and the Russian Federation, on an accelerated timetable, so that all such reductions can be completed by the year 2000;

(4) to build on the agreement reached in the Joint Understanding of June 16–17, 1992, by entering into multilateral negotiations with the Russian Federation, the United Kingdom, France, and the People's Republic of China, and, at an appro-

priate point in that process, enter into negotiations with other nuclear armed states in order to reach subsequent stage-by-stage agreements to achieve further reductions in the number of nuclear weapons in all countries;

(5) to continue and extend cooperative discussions with the appropriate authorities of the former Soviet military on means to maintain and improve secure command and control over nuclear forces;

(6) in consultation with other member countries of the North Atlantic Treaty Organization and other allies, to initiate discussions to bring tactical nuclear weapons into the arms control process; and

(7) to ensure that the United States assistance to securely transport and store, and ultimately dismantle, former Soviet nuclear weapons and missiles for such weapons is being properly and effectively utilized.

(c) ANNUAL REPORT.—By February 1 of each year, the President shall submit to the Congress a report on— President.

(1) the actions that the United States has taken, and the actions the United States plans to take during the next 12 months, to achieve each of the goals set forth in paragraphs (1) through (6) of subsection (b); and

(2) the actions that have been taken by the Russian Federation, by other former Soviet republics, and by other countries to achieve those goals.

Each such report shall be submitted in unclassified form, with a classified appendix if necessary.

SEC. 1342. SUPPORT FOR PEACEKEEPING ACTIVITIES.

(a) FINDINGS.—The Congress makes the following findings:

(1) International peacekeeping activities contribute to the national interests of the United States in maintaining global stability and order.

(2) International peacekeeping activities take many forms and include observer missions, ceasefire monitoring, human rights monitoring, refugee and humanitarian assistance, monitoring and conducting elections, monitoring of police in the demobilization of former combatants, and reforming judicial and other civil and administrative systems of government.

(3) International peacekeeping activities traditionally involve the presence of military troops, police forces, and, in recent years, civilian experts in transportation, logistics, medicine, electoral systems, human rights, land tenure, other economic and social issues, and other areas of expertise.

(4) International peacekeeping activities serve both the foreign policy interests and defense policy interests of the United States.

(5) The normal budget process of authorizing and appropriating funds a year in advance and reprogramming such funds is insufficient to satisfy the need for funds for peacekeeping efforts arising from an unanticipated crisis.

(6) Greater flexibility is needed to ensure the timely availability of funding to provide for peacekeeping activities.

(b) AUTHORIZED SUPPORT FOR FISCAL YEAR 1993.—(1) Subject to paragraph (2), the Secretary may provide assistance for international peacekeeping activities during fiscal year 1993 in an amount not to exceed $300,000,000 in accordance with section 403 of title 10, United States Code, as added by subsection (c). Notwithstanding subsection (b) of that section, the assistance so provided may be derived from funds appropriated to the Department of Defense for fiscal year 1993 for operation and maintenance or from balances in working capital accounts.

(2) No amount may be obligated pursuant to paragraph (1) unless the expenditure of such amount has been determined by the Director of the Office of Management and Budget to be counted against the defense category of the discretionary spending limits for fiscal year 1993 (as defined in section 601(a)(2) of the Congressional Budget Act of 1974) for purposes of part C of the Balanced Budget and Emergency Deficit Control Act of 1985.

(c) AUTHORIZATION.—(1) Chapter 20 of title 10, United States Code, is amended by adding at the end the following new section:

"§ 403. International peacekeeping activities

"(a) AUTHORITY.—To the extent provided in defense authorization Acts and appropriations Acts, the Secretary of Defense may furnish assistance in support of international peacekeeping activities of the United Nations or any regional organization of which the United States is a member.

"(b) FORMS OF ASSISTANCE.—Assistance provided under subsection (a) may include funds, supplies, services, and equipment. Any funds so provided shall be derived from amounts available to the Department of Defense for the fiscal year for which the assistance is provided.

"(c) LIMITATIONS RELATED TO AVAILABILITY OF STATE DEPARTMENT FUNDS.—Funds may be provided as assistance pursuant to subsection (a) for a fiscal year—

"(1) only if funds available to the Department of State for that fiscal year for contributions for international peacekeeping activities are insufficient or otherwise unavailable to meet the United States' fair share of costs for international peacekeeping activities, as determined by the President; and

"(2) only to the extent that such funds are required to meet unexpected and urgent requirements; and

"(3) only to the extent that the United States' fair share of such costs exceeds the amount that the President requests

Congress to appropriate for the Department of State for such fiscal year for international peacekeeping activities.

"(d) CONSULTATION.—The Secretary of Defense shall consult with the Secretary of State before furnishing any assistance pursuant to subsection (a).

"(e) DETERMINATIONS REQUIRED.—No assistance may be furnished pursuant to subsection (a) unless the Secretary of Defense certifies to Congress that the provision of such assistance will not adversely affect the military preparedness of the United States.

Reports.

"(f) ADVANCE NOTICE TO CONGRESS.—Not less than 30 days before obligating any funds for purposes of subsection (a), the Secretary of Defense shall transmit to Congress a report on the proposed obligation. The report shall—

"(1) specify the account, budget activity, and particular program or programs from which the funds proposed to be obligated are to be derived and the amount of the proposed obligation;

"(2) specify the activities and forms of assistance for which the Secretary of Defense plans to obligate such funds; and

"(3) include the certification required by subsection (e).

SEC. 1365. LANDMINE EXPORT MORATORIUM.

22 USC 2778 note.

(a) FINDINGS.—The Congress makes the following findings:

(1) Anti-personnel landmines, which are specifically designed to maim and kill people, have been used indiscriminately in dramatically increasing numbers, primarily in insurgencies in poor developing countries. Noncombatant civilians, including tens of thousands of children, have been the primary victims.

(2) Unlike other military weapons, landmines often remain implanted and undiscovered after conflict has ended, causing untold suffering to civilian populations. In Afghanistan, Cambodia, Laos, Vietnam, and Angola, tens of millions of unexploded landmines have rendered whole areas uninhabitable. In Afghanistan, an estimated hundreds of thousands of people have been maimed and killed by landmines during the 14-year civil war. In Cambodia, more than 20,000 civilians have lost limbs and another 60 are being maimed each month from landmines.

(3) Over 35 countries are known to manufacture landmines, including the United States. However, the United States is not a major exporter of landmines. During the past ten years the Department of State has approved ten licenses for the

commercial export of anti-personnel landmines valued at $980,000, and during the past five years the Department of Defense has approved the sale of 13,156 anti-personnel landmines valued at $841,145.

(4) The United States signed, but has not ratified, the 1981 Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed To Be Excessively Injurious or To Have Indiscriminate Effects. The Convention prohibits the indiscriminate use of landmines.

(5) When it signed the Convention, the United States stated: "We believe that the Convention represents a positive step forward in efforts to minimize injury or damage to the civilian population in time of armed conflict. Our signature of the Convention reflects the general willingness of the United States to adopt practical and reasonable provisions concerning the conduct of military operations, for the purpose of protecting noncombatants.".

(6) The President should submit the Convention to the Senate for its advice and consent to ratification, and the President should actively negotiate under United Nations auspices or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer or export of anti-personnel landmines. Such an agreement or modification would be an appropriate response to the end of the Cold War and the promotion of arms control agreements to reduce the indiscriminate killing and maiming of civilians.

(7) The United States should set an example for other countries in such negotiations, by implementing a one-year moratorium on the sale, transfer or export of anti-personnel landmines.

(b) STATEMENT OF POLICY.—(1) It shall be the policy of the United States to seek verifiable international agreements prohibiting the sale, transfer, or export, and further limiting the use, production, possession, and deployment of anti-personnel landmines.

(2) It is the sense of the Congress that the President should actively seek to negotiate under United Nations auspices or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer, or export of anti-personnel landmines.

(c) MORATORIUM ON TRANSFERS OF ANTI-PERSONNEL LANDMINES ABROAD.—For a period of one year beginning on the date of the enactment of this Act—

(1) no sale may be made or financed, no transfer may be made, and no license for export may be issued, under the Arms Export Control Act, with respect to any anti-personnel landmine; and

(2) no assistance may be provided under the Foreign Assistance Act of 1961, with respect to the provision of any anti-personnel landmine.

(e) DEFINITION.—For purposes of this section, the term "anti-personnel landmine" means—

(1) any munition placed under, on, or near the ground or other surface area, or delivered by artillery, rocket, mortar, or similar means or dropped from an aircraft and which is designed to be detonated or exploded by the presence, proximity, or contact of a person;

(2) any device or material which is designed, constructed, or adapted to kill or injure and which functions unexpectedly when a person disturbs or approaches an apparently harmless object or performs an apparently safe act;

(3) any manually-emplaced munition or device designed to kill, injure, or damage and which is actuated by remote control or automatically after a lapse of time.

(8) the Department of Defense and the Department of Energy have unique expertise that can further enhance the effectiveness of international nonproliferation activities;

(9) under the guidance of the President, the Secretary of Defense and the Secretary of Energy should continue to actively assist in United States nonproliferation activities and in formulating and executing United States nonproliferation policy, emphasizing activities such as improved capabilities (A) to detect and monitor proliferation, (B) to respond to terrorism, theft, and accidents involving weapons of mass destruction, and (C) to assist with interdiction and destruction of weapons of mass destruction and related weapons material; and

TITLE XVII—CUBAN DEMOCRACY ACT OF 1992

Cuban Democracy Act of 1992.
22 USC 6001 note.

SEC. 1701. SHORT TITLE.

This title may be cited as the "Cuban Democracy Act of 1992".

SEC. 1702. FINDINGS.

22 USC 6001.

The Congress makes the following findings:

(1) The government of Fidel Castro has demonstrated consistent disregard for internationally accepted standards of human rights and for democratic values. It restricts the Cuban people's exercise of freedom of speech, press, assembly, and other rights recognized by the Universal Declaration of Human Rights adopted by the General Assembly of the United Nations on December 10, 1948. It has refused to admit into Cuba the representative of the United Nations Human Rights Commission appointed to investigate human rights violations on the island.

(2) The Cuban people have demonstrated their yearning for freedom and their increasing opposition to the Castro government by risking their lives in organizing independent, democratic activities on the island and by undertaking hazardous flights for freedom to the United States and other countries.

(3) The Castro government maintains a military-dominated economy that has decreased the well-being of the Cuban people in order to enable the government to engage in military interventions and subversive activities throughout the world and, especially, in the Western Hemisphere. These have included involvement in narcotics trafficking and support for the FMLN guerrillas in El Salvador.

(4) There is no sign that the Castro regime is prepared to make any significant concessions to democracy or to undertake any form of democratic opening. Efforts to suppress dissent through intimidation, imprisonment, and exile have accelerated since the political changes that have occurred in the former Soviet Union and Eastern Europe.

(5) Events in the former Soviet Union and Eastern Europe have dramatically reduced Cuba's external support and threaten Cuba's food and oil supplies.

(6) The fall of communism in the former Soviet Union and Eastern Europe, the now universal recognition in Latin America and the Caribbean that Cuba provides a failed model of government and development, and the evident inability of Cuba's economy to survive current trends, provide the United States and the international democratic community with an unprecedented opportunity to promote a peaceful transition to democracy in Cuba.

(7) However, Castro's intransigence increases the likelihood that there could be a collapse of the Cuban economy, social upheaval, or widespread suffering. The recently concluded Cuban Communist Party Congress has underscored Castro's

unwillingness to respond positively to increasing pressures for reform either from within the party or without.

(8) The United States cooperated with its European and other allies to assist the difficult transitions from Communist regimes in Eastern Europe. Therefore, it is appropriate for those allies to cooperate with United States policy to promote a peaceful transition in Cuba.

22 USC 6002.

SEC. 1703. STATEMENT OF POLICY.

It should be the policy of the United States—

(1) to seek a peaceful transition to democracy and a resumption of economic growth in Cuba through the careful application of sanctions directed at the Castro government and support for the Cuban people;

(2) to seek the cooperation of other democratic countries in this policy;

(3) to make clear to other countries that, in determining its relations with them, the United States will take into account their willingness to cooperate in such a policy;

(4) to seek the speedy termination of any remaining military or technical assistance, subsidies, or other forms of assistance to the Government of Cuba from any of the independent states of the former Soviet Union;

(5) to continue vigorously to oppose the human rights violations of the Castro regime;

(6) to maintain sanctions on the Castro regime so long as it continues to refuse to move toward democratization and greater respect for human rights;

(7) to be prepared to reduce the sanctions in carefully calibrated ways in response to positive developments in Cuba;

(8) to encourage free and fair elections to determine Cuba's political future;

(9) to request the speedy termination of any military or technical assistance, subsidies, or other forms of assistance to the Government of Cuba from the government of any other country; and

(10) to initiate immediately the development of a comprehensive United States policy toward Cuba in a post-Castro era.

TITLE XXXII—NUCLEAR SAFETY

SEC. 3201. AUTHORIZATION FOR DEFENSE NUCLEAR SAFETY BOARD.

There are authorized to be appropriated for fiscal year 1993, $13,000,000 for the operation of the Defense Nuclear Facilities Safety Board under chapter 21 of the Atomic Energy Act of 1954 (42 U.S.C. 2286 et seq.).

SEC. 3202. NUCLEAR SAFETY IN EASTERN EUROPE AND THE FORMER SOVIET UNION.

(a) FINDINGS.—The Congress finds that—

(1) the Chernobyl nuclear reactor accident on April 26, 1986, has resulted in $283 to $352 billion worth of damage, with more than 4,000,000 people still living on land contaminated with radiation;

(2) there are 16 Chernobyl-type RBMK reactors now operating in Russia, Ukraine, and Lithuania, all of which have faulty designs, poor construction, and dangerously lax and outdated operating procedures;

(3) there are dozens of Soviet-designed reactors now operating in Eastern Europe and the former Soviet Union with poor construction and lax and outdated operating procedures;

(4) a serious nuclear reactor accident in one of the newly freed states of Eastern Europe and the former Soviet Union would seriously exacerbate these states' difficult progress towards economic recovery and could lead to political instability;

(5) retrofitting the RBMK reactors with modern Western safety equipment will result in only marginal safety improvements at great expense; and

(6) alternative power sources, such as natural gas turbines, and modern energy efficiency measures and technologies could displace the need for much of the power which these reactors provide.

(b) UNITED STATES POLICY.—It is the sense of Congress that the President should undertake bilateral and multilateral initiatives, including trade initiatives, to—

(1) assist in bringing on line enough replacement power and modern energy efficiency measures and technologies in the states of Eastern Europe and the former Soviet Union so that the RBMK reactors may be shut down as soon as possible and placed in stable condition to prevent radiological contamination;

(2) assist the states of Eastern Europe and the former Soviet Union in upgrading their other nuclear reactors to Western standards of safety and in ensuring that all of their nuclear reactors receive routine maintenance and repairs;

(3) encourage and provide technical assistance to Russia and Ukraine to enact domestic legislation governing nuclear reactor safety;

(4) negotiate formal agreements for nuclear cooperation with Russia and Ukraine;

(5) identify nuclear safety research as a principal focus of the soon-to-be created nuclear science centers in Ukraine and Russia; and

(6) make greater resources available to the International Atomic Energy Agency to promote programs of nuclear safety in Eastern Europe and the former Soviet Union.

(c) REPORTING REQUIREMENT.—Not later than 60 days after the date of enactment of this Act, the President shall submit to Congress a report with a systematic assessment of the nuclear reactor safety situation in Eastern Europe and the former Soviet Union, with a description of specific bilateral and multilateral initiatives the Administration is taking and plans to take to address these nuclear safety issues. President.

Defense Conversion, Reinvestment, and Transition Assistance Act of 1992.

DIVISION D—DEFENSE CONVERSION, REINVESTMENT, AND TRANSITION ASSISTANCE

10 USC 2491 note.

SEC. 4001. SHORT TITLE.

This division may be cited as the "Defense Conversion, Reinvestment, and Transition Assistance Act of 1992".

TITLE XLI—FINDINGS

10 USC 2491 note.

SEC. 4101. FINDINGS.

Congress makes the following findings:

(1) The collapse of communism in Eastern Europe and the dissolution of the Soviet Union have fundamentally changed the military threat that formed the basis for the national security policy of the United States since the end of World War II.

(2) The change in the military threat presents a unique opportunity to restructure and reduce the military requirements of the United States.

(3) As the United States proceeds with the post-Cold War defense build down, the Nation must recognize and address the impact of reduced defense spending on the military personnel, civilian employees, and defense industry workers who have been the foundation of the national defense policies of the United States.

(4) The defense build down will have a significant impact on communities as procurements are reduced and military installations are closed and realigned.

(5) Despite the changes in the military threat, the United States must maintain the capability to respond to regional conflicts that threaten the national interests of the United States, and to reconstitute forces in the event of an extended conflict.

(6) The skills and capabilities of military personnel, civilian employees of the Department of Defense, defense industry workers, and defense industries represent an invaluable national resource that can contribute to the economic growth of the United States and to the long-term vitality of the national technology and industrial base.

(7) Prompt and vigorous implementation of defense conversion, reinvestment, and transition assistance programs is essential to ensure that the defense build down is structured in a manner that—

(A) enhances the long-term ability of the United States to maintain a strong and vibrant national technology and industrial base; and

(B) promotes economic growth.

Subtitle G—Service Members Occupational Conversion and Training

Service Members Occupational Conversion and Training Act of 1992.
10 USC 1143 note.

SEC. 4481. SHORT TITLE.

This subtitle may be cited as the "Service Members Occupational Conversion and Training Act of 1992".

SEC. 4482. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) the men and women serving in our Nation's Armed Forces are of the highest caliber—intelligent, dedicated, and disciplined—and hundreds of thousands of these service members will be separating from the Armed Forces due to the drawdown in military personnel;

(2) these men and women will be entering the civilian workforce during a time of economic instability and uncertainty;

(3) many of these service personnel specialized in critical skills such as combat arms which will not transfer to the civilian workforce;

(4) as part of the Nation's obligation to these service members, the Secretary of Defense has a unique responsibility and obligation to provide them with the tools they need to be reassimilated into the civilian community and continue to be outstanding, productive citizens;

(5) the rapid placement of separated military personnel in civilian employment and training opportunities will significantly reduce the Department of Defense's costs relative to unemployment compensation for ex-service members;

(6) military personnel are a national resource whose skills and abilities must be absorbed by and integrated into the civilian workforce; and

(7) providing such training will reduce the total cost of the drawdown and is important to the national defense function of the Department of Defense.

(b) PURPOSE.—The purpose of this subtitle is to provide additional means by which the Secretary of Defense can manage the drawdown of the Armed Forces and to provide additional forms of assistance to members of the Armed Forces who are forced or induced to leave military service by reason of the drawdown of the Armed Forces, thereby facilitating the Secretary's ability to achieve end strength reductions caused by the drawdown.

SEC. 4483. DEFINITIONS.

For the purposes of this subtitle:

(1) The term "Secretary" means the Secretary of Defense.

(2) The terms "veteran", "compensation", "service-connected", "State", and "active military, naval, or air service" have the meanings given such terms in paragraphs (2), (13), (16), (20), and (24), respectively, of section 101 of title 38, United States Code.

SEC. 4484. ESTABLISHMENT OF PROGRAM.

(a) ESTABLISHMENT.—Not later than 60 days after the date of enactment of this Act, the Secretary shall carry out a program in accordance with this subtitle to assist eligible persons in obtaining employment through participation in programs of significant training for employment in stable and permanent positions. The Secretary may enter into an agreement with the Secretary of Veter-

ans Affairs, the Secretary of Labor, or both, for the implementation of the program. The program shall be carried out through payments to employers who employ and train eligible persons in such positions. Such payments shall be made to assist such employers in defraying the costs of necessary training.

(b) STATE AGENCIES.—(1) The implementing official may enter into contracts or agreements with State approving agencies, as designated pursuant to section 3671(a) of title 38, United States Code, or other State agencies to carry out any duty of the implementing official under this subtitle. Payment may be made to such agencies pursuant to any such contract or agreement for reasonable and necessary expenses of salary and travel incurred by employees of such agencies in carrying out such duties. Each such payment may be made only from funds available to the implementing official pursuant to section 4495(a)(3).

Reports.

(2) Each State approving agency or other State agency with which a contract or agreement is entered into under this section shall submit to the implementing official on a monthly or quarterly basis, as determined by the agency, a report containing a certification of such expenses for the period covered by the report. The report shall be submitted in the form and manner required by such official.

SEC. 4485. ELIGIBILITY FOR PROGRAM; PERIOD OF TRAINING.

(a) IN GENERAL.—(1) To be eligible for participation in a program of job training under this subtitle, an eligible person must be an eligible person described in paragraph (2) who—

(3) For purposes of paragraph (1), an eligible person shall be considered to be unemployed during any period such person is without a job and wants and is available for work. In determining whether a person is unemployed for purposes of paragraph (1),

the implementing official shall not take into consideration part-time or temporary employment, as defined by such official.

(b) APPLICATION PROCESS.—(1) An eligible person who desires to participate in a program of job training under this subtitle shall submit to the implementing official an application for participation in such a program. Such an application—

(A) shall include a certification by the eligible person that the eligible person meets the criteria for eligibility prescribed by subparagraph (A), (B), or (C) of subsection (a)(1);

(C) shall be in such form and contain such additional information as such official may prescribe.

(2)(A) Subject to subparagraph (B), an application by an eligible person for participation in a program of job training under this subtitle shall be approved unless the implementing official finds that the eligible person is not eligible to participate in a program of job training under this subtitle.

(B) Approval of an application of an eligible person under this subtitle may be withheld if the implementing official determines that, because of limited funds available for the purpose of making payments to employers under this subtitle, it is necessary to limit the number of participants in the program carried out under this subtitle.

(3)(A) Subject to section 4491(c), the implementing official shall certify as eligible for participation under this subtitle an eligible person whose application is approved under this subsection and shall furnish the eligible person with a certificate of that eligible person's eligibility for presentation to an employer offering a program of job training under this subtitle. Any such certificate shall expire 180 days after it is furnished to the eligible person. The date on which a certificate is furnished to an eligible person under this paragraph shall be stated on the certificate.

(B) A certificate furnished under this paragraph may, upon the eligible person's application, be renewed in accordance with the terms and conditions of subparagraph (A).

(c) APPEAL OF DENIAL OF CERTIFICATE.—The implementing official shall permit each eligible person who is not issued a certificate of eligibility under subsection (b) (other than an eligible person who is not issued such a certificate by reason of subsection (b)(2)(B)) to challenge in a hearing before the implementing official the decision of the implementing official not to issue the certificate. (A) will not result in the displacement of currently employed workers (including partial displacement such as a reduction in the hours of nonovertime work, wages, or employment benefits); and

(B) will not be in a job (i) while any other individual is on layoff from the same or any substantially equivalent job, or (ii) the opening for which was created as a result of the employer having terminated the employment of any regular employee or otherwise having reduced its work force with the intention of hiring an eligible person in such job under this subtitle.

(4) That the employer will not employ in the program of job training an eligible person who is already qualified by training and experience for the job for which training is to be provided.

(5) That the job which is the objective of the training program is one that involves significant training.

(6) That the training content of the program is adequate, in light of the nature of the occupation for which training is to be provided and of comparable training opportunities

in such occupation, to accomplish the training objective certified under paragraph (2) of subsection (e).

(7) That each participating eligible person will be employed full time in the program of job training.

(8) That the training period under the proposed program is not longer than the training periods that employers in the community customarily require new employees to complete in order to become competent in the occupation or job for which training is to be provided.

(9) That there are in the training establishment or place of employment such space, equipment, instructional material, and instructor personnel as are needed to accomplish the training objective certified under subsection (e)(2).

(10) That the employer will keep records adequate to show the progress made by each eligible person participating in the program and otherwise to demonstrate compliance with the requirements established under this subtitle.

(11) That the employer will furnish each participating eligible person, before the eligible person's entry into training, with a copy of the employer's certification under this subsection and will obtain and retain the eligible person's signed acknowledgment of having received such certification.

(12) That, as applicable, the employer will provide each participating eligible person with the full opportunity to participate in a personal interview pursuant to section 4493(b)(1)(B) during the eligible person's normal workday.

(13) That the program meets such other criteria as the Secretary, in consultation with the Secretary of Veterans Affairs and the Secretary of Labor, may determine are essential for the effective implementation of the program established by this subtitle.

(e) HOURS AND TRAINING CONTENT.—A certification under subsection (d) shall include—

(1) a statement indicating (A) the total number of hours of participation in the program of job training to be offered an eligible person, (B) the length of the program of job training, and (C) the starting rate of wages to be paid to a participant in the program; and

(2) a description of the training content of the program (including any agreement the employer has entered into with an educational institution under section 4489) and of the objective of the training.

(f) STATUS OF CERTIFIED MATTERS.—(1) Except as specified in paragraph (2), each matter required to be certified to in paragraphs (1) through (11) of subsection (d) shall be considered to be a requirement established under this subtitle.

(2)(A) For the purposes of section 4487(c), only matters required to be certified in paragraphs (1) through (10) of subsection (d) shall be so considered.

(B) For the purposes of section 4490, a matter required to be certified under paragraph (12) of subsection (d) shall also be so considered.

(g) WITHHOLDING APPROVAL; DISAPPROVAL.—In accordance with regulations which the Secretary shall prescribe, the implementing official may withhold approval of an employer's proposed program of job training pending the outcome of an investigation under section

Regulations.

4491 and, based on the outcome of such an investigation, may disapprove such program.

(h) ON-JOB TRAINING.—For the purposes of this section, approval of a program of apprenticeship or other on-job training for the purposes of section 3687 of title 38, United States Code, shall be considered to meet all requirements established under the provisions of this subtitle (other than subsection (b) and (d)(3)) for approval of a program of job training.

SEC. 4487. PAYMENTS TO EMPLOYERS; OVERPAYMENT.

(a) PAYMENTS.—(1)(A) Except as provided in subsections (b) and (c) and subject to section 4485(d), the implementing official shall make payments to employers in accordance with this section. The amount payable to such an employer on behalf of an eligible person with respect to an approved program of job training under this subtitle shall be determined by such official at the beginning of such program. Except as provided in subparagraph (B), that amount shall be equal to 50 percent of the product of (i) the starting hourly rate of wages paid to the eligible person by the employer (without regard to overtime or premium pay), and (ii) the number of hours to be worked by the eligible person during the entire program period.

(B) In no case may the amount determined under subparagraph (A) exceed—

(b) PAYMENT PERIOD.—(1) Except as provided in paragraphs (2) and (3), the implementing official shall pay training assistance to employers under this section on a quarterly basis.

(2) The implementing official may pay training assistance to an employer on a monthly basis if the implementing official determines (pursuant to regulations prescribed by the implementing official) that the number of employees of the employer is such that the payment of assistance on a quarterly basis would be burdensome to the employer.

(3) The implementing official shall withhold 25 percent of each payment due under this subsection with respect to an eligible person. The total amount withheld with respect to an eligible person under this paragraph shall be paid to the employer at the end of the four month period of employment of such person under this subtitle beginning on the date of completion of training.

(c) TOOLS AND OTHER WORK-RELATED MATERIALS.—In addition to payments under subsection (a), the implementing official shall reimburse the employer for the cost of tools and other work-related materials necessary for the eligible person's participation in the program of job training in an amount up to $500 if the employer presents to the implementing official a certification signed by the employer and eligible person that—

(B) Whenever such official finds that an employer has failed in any substantial respect to comply for a period of time with a requirement established under this subtitle (unless the employer's failure is the result of false or incomplete information provided by the eligible person), each amount paid to the employer on behalf of an eligible person for that period shall be considered to be an overpayment under this subtitle, and the amount of such overpayment shall constitute a liability of the employer to the United States.

(2) Whenever such official finds that an overpayment under this subtitle has been made to an employer on behalf of an eligible person as a result of a certification by the eligible person, or as a result of information provided to an employer or contained in an application submitted by the eligible person, which was willfully or negligently false in any material respect, the amount of such overpayment shall constitute a liability of the eligible person to the United States.

(3) Any overpayment referred to in paragraph (1) or (2) may be recovered in the same manner as any other debt due the United States. Any overpayment recovered shall be credited to funds available to make payments under this subtitle. If there are no such funds, any overpayment recovered shall be deposited into the Treasury.

(4) Any overpayment referred to in paragraph (1) or (2) may be waived, in whole or in part, in accordance with the terms and conditions set forth in section 5302 of title 38, United States Code.

(e) LIMITATIONS.—(1) Payment may not be made to an employer for a period of training under this subtitle on behalf of an eligible person until the implementing official has received—

(A) from the eligible person, a certification that the eligible person was employed full time by the employer in a program of job training during such period; and

(B) from the employer, a certification—

(i) that the eligible person was employed by the employer during that period and that the eligible person's performance and progress during such period were satisfactory; and

(ii) of the number of hours worked by the eligible person during that period.

With respect to the first such certification by an employer with respect to an eligible person, the certification shall indicate the date on which the employment of the eligible person began and the starting hourly rate of wages paid to the eligible person (without regard to overtime or premium pay).

(2) Payment may not be made to an employer for a period of training under this subtitle on behalf of an eligible person for which a request for payment is made after two years after the date on which that period of training ends.

SEC. 4488. ENTRY INTO PROGRAM OF JOB TRAINING.

(a) IN GENERAL.—Notwithstanding any other provision of this subtitle, the implementing official shall withhold or deny approval of an eligible person's entry into an approved program of job training if such official determines that funds are not available to make payments under this subtitle on behalf of the eligible person to the employer offering that program. Before the entry of an eligible person into an approved program of job training of an employer for purposes of assistance under this subtitle, the employer shall notify such official of the employer's intention to employ that eligible person. The eligible person may begin such program of job training with the employer two weeks after the notice is transmitted, by means prescribed by such official, to such official unless within that time the employer has received notice from such official that approval of the eligible person's entry into that program of job training must be withheld or denied in accordance with this section.

(b) PERIOD FOR COMMENCEMENT OF PARTICIPATION UNDER CERTIFICATE.—An eligible person who is issued a certificate of eligibility for participation in a program of job training under this subtitle shall commence participation in such a program not more than 180 days after the date of the issuance of the certificate. SEC. 4490. DISCONTINUANCE OF APPROVAL OF PARTICIPATION IN CERTAIN EMPLOYER PROGRAMS.

(a) FAILURE TO MEET REQUIREMENTS.—If the implementing official finds at any time that a program of job training previously approved for the purposes of this subtitle thereafter fails to meet any of the requirements established under this subtitle, such official may immediately disapprove further participation by eligible persons in that program. Such official shall provide to the employer concerned, and to each eligible person participating in the employer's program, a statement of the reasons for, and an opportunity for a hearing with respect to, such disapproval. The employer and each such eligible person shall be notified of such disapproval, the reasons for such disapproval, and the opportunity for a hearing. (b) RATE OF COMPLETION.—(1) If the implementing official determines that the rate of eligible persons' successful completion of an employer's programs of job training previously approved for the purposes of this subtitle is disproportionately low because of deficiencies in the quality of such programs, such official shall disapprove participation in such programs on the part of eligible persons who had not begun such participation on the date that

the employer is notified of the disapproval. In determining whether any such rate is disproportionately low because of such deficiencies, such official shall take into account appropriate data, including—

(A) the quarterly data provided by the Secretary of Labor with respect to the number of eligible persons who receive counseling in connection with training under this subtitle, are referred to employers under this subtitle, participate in job training under this subtitle, and complete such training or do not complete such training, and the reasons for noncompletion; and

(B) data compiled through the particular employer's compliance surveys.

(2) With respect to a disapproval under paragraph (1), the implementing official shall provide to the employer concerned the kind of statement, opportunity for hearing, and notice described in subsection (a).

(b) COMPLIANCE MONITORING.—Such official may monitor employers and eligible persons participating in programs of job training under this subtitle to determine compliance with the requirements established under this subtitle.

(c) INVESTIGATIONS.—Such official may investigate any matter such official considers necessary to determine compliance with the requirements established under this subtitle. The investigations authorized by this subsection may include examining records (including making certified copies of records), questioning employees, and entering into any premises or onto any site where any part of a program of job training is conducted under this subtitle, or where any of the records of the employer offering or providing such program are kept.

(d) DEPARTMENT OF LABOR.—Functions may be administered under subsections (b) and (c) in accordance with an agreement between the Secretary and the Secretary of Labor providing for the administration of such subsections (or any portion of such subsections) by the Department of Labor. Under such an agreement, any entity of the Department of Labor specified in the agreement may administer such subsections.

(2) The Secretary of Veterans Affairs, in cooperation with the implementing official (unless the Secretary of Veterans Affairs is the implementing official), shall take all feasible steps to ensure that, in the cases of eligible persons who are eligible to have payments made on their behalf under both this subtitle and section 3116(b) of title 38, United States Code, the authority under such section is utilized, to the maximum extent feasible and consistent with the eligible person's best interests, to make payments to employers on behalf of such eligible persons.

(2) No case manager shall be assigned pursuant to paragraph (1)(A)—

(A) for an eligible person if, on the basis of a recommendation made by a disabled veterans' outreach program specialist, the implementing official determines that there is no need for a case manager for such eligible person; or

(i) the employer has an appropriate and effective employee assistance program that is available to all eligible persons participating in the employer's programs of job training under this subtitle; or

(ii) the rate of eligible persons' successful completion of the employer's programs of job training under this subtitle, either cumulatively or during the previous program year, is 60 percent or higher.

(1) PROCEDURE.—Exercising the agency's authority under provisions of law other than this section without complying with—

"Eleventh. To make investments designed primarily to promote the public welfare, including the welfare of low- and moderate-income communities or families (such as by providing housing, services, or jobs). A national banking association may make such investments directly or by purchasing interests in an entity primarily engaged in making such investments. An association shall not make any such investment if the investment would expose the association to unlimited liability. The Comptroller of the Currency shall limit an association's investments in any 1 project and an association's aggregate investments under this paragraph. An association's aggregate investments under this paragraph shall not exceed an amount equal to the sum of 5 percent of the association's capital stock actually paid in and unimpaired and 5 percent of the association's unimpaired surplus fund, unless the Comptroller determines by order that the higher amount will pose no significant risk to the affected deposit insurance fund, and the association is adequately capitalized. SEC. 7. SENSE OF THE CONGRESS.

It is the sense of the Congress that the Board of Governors of the Federal Reserve System, the Comptroller of the Currency, the Director of the Office of Thrift Supervision, the Federal Deposit Insurance Corporation, and the National Credit Union Administration should encourage depository institutions in areas affected by such major disasters as Hurricane Andrew, Hurricane Iniki, and the Los Angeles civil unrest to meet the financial services needs of their communities.

(1) IN GENERAL.—Not later than 6 months after the date of enactment of this Act, the Secretary of Housing and Urban Development (hereafter referred to as the "Secretary") shall establish an energy efficient mortgage pilot program in 5 States, to promote the purchase of existing energy efficient residential buildings and the installation of cost-effective improvements in existing residential buildings.

(2) PILOT PROGRAM.—The pilot program established under this subsection shall include the following criteria, where applicable:

(A) ORIGINATION.—The lender shall originate a housing loan that is insured under title II of the National Housing Act in accordance with the applicable requirements.

(B) APPROVAL.—The mortgagor's base loan application shall be approved if the mortgagor's income and credit record is found to be satisfactory.

(C) COST OF IMPROVEMENTS.—The cost of cost-effective energy efficiency improvements shall not exceed the greater of—

(i) 5 percent of the property value (not to exceed $8,000); or

(ii) $4,000.

(3) AUTHORITY FOR MORTGAGEES.—In granting mortgages under the pilot program established pursuant to this subsection, the Secretary shall grant mortgagees the authority—

(A) to permit the final loan amount to exceed the loan limits established under title II of the National Housing Act by an amount not to exceed 100 percent of the cost of the cost-effective energy efficiency improvements, if the mortgagor's request to add the cost of such improvements is received by the mortgagee prior to funding of the base loan;

(B) to hold in escrow all funds provided to the mortgagor to undertake the energy efficiency improvements until the efficiency improvements are actually installed; and

(C) to transfer or sell the energy efficient mortgage to the appropriate secondary market agency, after the mortgage is issued, but before the energy efficiency improvements are actually installed.

(4) PROMOTION OF PILOT PROGRAM.—The Secretary shall encourage participation in the energy efficient mortgage pilot program by—

(A) making available information to lending agencies and other appropriate authorities regarding the availability and benefits of energy efficient mortgages;

(B) requiring mortgagees and designated lending authorities to provide written notice of the availability and benefits of the pilot program to mortgagors applying for financing in those States designated by the Secretary as participating under the pilot program; and

(C) requiring each applicant for a mortgage insured under title II of the National Housing Act in those States participating under the pilot program to sign a statement that such applicant has been informed of the program requirements and understands the benefits of energy efficient mortgages.

(5) TRAINING PROGRAM.—Not later than 9 months after the date of enactment of this Act, the Secretary, in consultation with the Secretary of Energy, shall establish and implement a program for training personnel at relevant lending agencies, real estate companies, and other appropriate organizations regarding the benefits of energy efficient mortgages and the operation of the pilot program under this subsection.

(6) REPORT.—Not later than 18 months after the date of enactment of this Act, the Secretary shall prepare and submit a report to the Congress describing the effectiveness and implementation of the energy efficient mortgage pilot program

as described under this subsection, and assessing the potential for expanding the pilot program nationwide.

(b) EXPANSION OF PROGRAM.—Not later than the expiration of the 2-year period beginning on the date of the implementation of the energy efficient mortgage pilot program under this section, the Secretary of Housing and Urban Development shall expand the pilot program on a nationwide basis and shall expand the program to include new residential housing, unless the Secretary determines that either such expansion would not be practicable, in which case the Secretary shall submit to the Congress, before the expiration of such period, a report explaining why either expansion would not be practicable.

(c) DEFINITIONS.—For purposes of this section:

(1) The term "base loan" means any mortgage loan for a residential building eligible for insurance under title II of the National Housing Act or title 38, United States Code, that does not include the cost of cost-effective energy improvements.

(2) The term "cost-effective" means, with respect to energy efficiency improvements to a residential building, improvements that result in the total present value cost of the improvements (including any maintenance and repair expenses) being less than the total present value of the energy saved over the useful life of the improvement, when 100 percent of the cost of improvements is added to the base loan. For purposes of this paragraph, savings and cost-effectiveness shall be determined pursuant to a home energy rating report sufficient for purposes of the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation, or by other technically accurate methods.

(3) The term "energy efficient mortgage" means a mortgage on a residential building that recognizes the energy savings of a home that has cost-effective energy saving construction or improvements (including solar water heaters, solar-assisted air conditioners and ventilators, super-insulation, and insulating glass and film) and that has the effect of not disqualifying a borrower who, but for the expenditures on energy saving construction or improvements, would otherwise have qualified for a base loan.

(4) The term "residential building" means any attached or unattached single family residence.

(d) RULE OF CONSTRUCTION.—This section may not be construed to affect any other programs of the Secretary of Housing and Urban Development for energy-efficient mortgages. The pilot program carried out under this section shall not replace or result in the termination of such other programs.

(e) REGULATIONS.—The Secretary shall issue any regulations necessary to carry out this section not later than the expiration of the 180-day period beginning on the date of the enactment of this Act. The regulations shall be issued after notice and opportunity for public comment pursuant to the provisions of section 553 of title 5, United States Code (notwithstanding subsections (a)(2), (b)(B), and (d)(3) of such section).

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

Subtitle B—Utilities

SEC. 111. ENCOURAGEMENT OF INVESTMENTS IN CONSERVATION AND ENERGY EFFICIENCY BY ELECTRIC UTILITIES.

(a) AMENDMENT TO THE PUBLIC UTILITY REGULATORY POLICIES ACT.—The Public Utility Regulatory Policies Act of 1978 (P.L. 95–617; 92 Stat. 3117; 16 U.S.C. 2601 and following) is amended by adding the following at the end of section 111(d): 16 USC 2621.

"(7) INTEGRATED RESOURCE PLANNING.—Each electric utility shall employ integrated resource planning. All plans or filings before a State regulatory authority to meet the requirements of this paragraph must be updated on a regular basis, must provide the opportunity for public participation and comment, and contain a requirement that the plan be implemented.

"(8) INVESTMENTS IN CONSERVATION AND DEMAND MANAGEMENT.—The rates allowed to be charged by a State regulated electric utility shall be such that the utility's investment in and expenditures for energy conservation, energy efficiency resources, and other demand side management measures are at least as profitable, giving appropriate consideration to income lost from reduced sales due to investments in and expenditures for conservation and efficiency, as its investments in and expenditures for the construction of new generation, transmission, and distribution equipment. Such energy conservation, energy efficiency resources and other demand side management measures shall be appropriately monitored and evaluated.

"(9) ENERGY EFFICIENCY INVESTMENTS IN POWER GENERATION AND SUPPLY.—The rates charged by any electric utility shall be such that the utility is encouraged to make investments in, and expenditures for, all cost-effective improvements in the energy efficiency of power generation, transmission and distribution. In considering regulatory changes to achieve the objectives of this paragraph, State regulatory authorities and nonregulated electric utilities shall consider the disincentives caused by existing ratemaking policies, and practices, and consider incentives that would encourage better maintenance, and investment in more efficient power generation, transmission and distribution equipment.".

(b) PROTECTION FOR SMALL BUSINESS.—The Public Utility Regulatory Policies Act of 1978 (Public Law 95–617; 92 Stat. 3117; 16 U.S.C. 2601 and following) is amended by inserting the following new paragraph at the end of subsection 111(c):

"(3) If a State regulatory authority implements a standard established by subsection (d)(7) or (8), such authority shall—

"(A) consider the impact that implementation of such standard would have on small businesses engaged in the design, sale, supply, installation or servicing of energy conservation, energy efficiency or other demand side management measures, and

"(B) implement such standard so as to assure that utility actions would not provide such utilities with unfair competitive advantages over such small businesses.".

(c) EFFECTIVE DATE.—Section 112(b) of such Act is amended by inserting "(or after the enactment of the Comprehensive National Energy Policy Act in the case of standards under paragraphs (7), 16 USC 2622.

(8), and (9) of section 111(d))" after "Act" in both places such word appears in paragraphs (1) and (2).

16 USC 2602.

(d) DEFINITIONS.—Section 3 of such Act is amended by adding the following new paragraphs at the end thereof:

"(19) The term 'integrated resource planning' means, in the case of an electric utility, a planning and selection process for new energy resources that evaluates the full range of alternatives, including new generating capacity, power purchases, energy conservation and efficiency, cogeneration and district heating and cooling applications, and renewable energy resources, in order to provide adequate and reliable service to its electric customers at the lowest system cost. The process shall take into account necessary features for system operation, such as diversity, reliability, dispatchability, and other factors of risk; shall take into account the ability to verify energy savings achieved through energy conservation and efficiency and the projected durability of such savings measured over time; and shall treat demand and supply resources on a consistent and integrated basis.

"(20) The term 'system cost' means all direct and quantifiable net costs for an energy resource over its available life, including the cost of production, distribution, transportation, utilization, waste management, and environmental compliance.

"(21) The term 'demand side management' includes load management techniques.".

16 USC 2621 note.

(e) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall transmit a report to the President and to the Congress containing—

(1) a survey of all State laws, regulations, practices, and policies under which State regulatory authorities implement the provisions of paragraphs (7), (8), and (9) of section 111(d) of the Public Utility Regulatory Policies Act of 1978;

(2) an evaluation by the Secretary of whether and to what extent, integrated resource planning is likely to result in—

(A) higher or lower electricity costs to an electric utility's ultimate consumers or to classes or groups of such consumers;

(B) enhanced or reduced reliability of electric service; and

(C) increased or decreased dependence on particular energy resources; and

(3) a survey of practices and policies under which electric cooperatives prepare integrated resource plans, submit such plans to the Rural Electrification Administration and the extent to which such integrated resource planning is reflected in rates charged to customers.

The report shall include an analysis prepared in conjunction with the Federal Trade Commission, of the competitive impact of implementation of energy conservation, energy efficiency, and other demand side management programs by utilities on small businesses engaged in the design, sale, supply, installation, or servicing of similar energy conservation, energy efficiency, or other demand side management measures and whether any unfair, deceptive, or predatory acts exist, or are likely to exist, from implementation of such programs.

SEC. 112. ENERGY EFFICIENCY GRANTS TO STATE REGULATORY AUTHORITIES. 42 USC 6807a.

(a) ENERGY EFFICIENCY GRANTS.—The Secretary is authorized in accordance with the provisions of this section to provide grants to State regulatory authorities in an amount not to exceed $250,000 per authority, for purposes of encouraging demand-side management including energy conservation, energy efficiency and load management techniques and for meeting the requirements of paragraphs (7), (8), and (9) of section 111(d) of the Public Utility Regulatory Policies Act of 1978 and as a means of meeting gas supply needs and to meet the requirements of paragraphs (3) and (4) of section 303(b) of the Public Utility Regulatory Policies Act of 1978. (A) paragraphs (7), (8) and (9) of section 111(d) of the Public Utility Regulatory Policies Act of 1978; or

(B) paragraphs (3) and (4) of section 303(b) of the Public Utility Regulatory Policies Act of 1978.

(2) Such actions—

(A) shall include procedures to facilitate the participation of grantees and nonprofit subgrantees of the Department of Energy's Weatherization Assistance Program in proceedings of such regulatory authorities examining demand-side management programs; and

(B) shall provide for coverage of the cost of such grantee and subgrantees' participation in such proceedings.

(d) RECORDKEEPING.—Each State regulatory authority that receives a grant under this section shall keep such records as the Secretary shall require.

(e) DEFINITION.—For purposes of this section, the term "State regulatory authority" shall have the same meaning as provided by section 3 of the Public Utility Regulatory Policies Act of 1978 in the case of electric utilities, and such term shall have the same meaning as provided by section 302 of the Public Utility Regulatory Policies Act of 1978 in the case of gas utilities, except that in the case of any State without a statewide ratemaking authority, such term shall mean the State energy office.

The Administrator shall review the initial plan in accordance with a schedule established by the Administrator (which schedule will provide for the review of all initial plans within 24 months after such regulations are amended), and each revision thereof within 120 days after his receipt of the plan or revision and determine whether the customer has in the development of the plan or revi-

sion, complied with this title. Plan amendments may be submitted to the Administrator at any time and the Administrator shall review each such amendment within 120 days after receipt thereof to determine whether the customer in amending its plan has complied with this title. If the Administrator determines that the customer, in developing its plan, revision, or amendment, has not complied with the requirements of this title, the customer shall resubmit the plan at any time thereafter. Whenever a plan or revision or amendment is resubmitted the Administrator shall review the plan or revision or amendment within 120 days after his receipt thereof to determine whether the customer has complied with this title.

"(b) CRITERIA FOR APPROVAL OF INTEGRATED RESOURCE PLANS.—The Administrator shall approve an integrated resource plan submitted as required under subsection (a) if, in developing the plan, the customer has:

"(1) Identified and accurately compared all practicable energy efficiency and energy supply resource options available to the customer.

"(2) Included a 2-year action plan and a 5-year action plan which describe specific actions the customer will take to implement its integrated resource plan.

"(3) Designated 'least-cost options' to be utilized by the customer for the purpose of providing reliable electric service to its retail consumers and explained the reasons why such options were selected.

"(4) To the extent practicable, minimized adverse environmental effects of new resource acquisitions.

"(5) In preparation and development of the plan (and each revision or amendment of the plan) has provided for full public participation, including participation by governing boards.

"(6) Included load forecasting.

"(7) Provided methods of validating predicted performance in order to determine whether objectives in the plan are being met.

"(8) Met such other criteria as the Administrator shall require.

"(c) USE OF OTHER INTEGRATED RESOURCE PLANS.—Where a customer or group of customers are implementing integrated resource planning under a program responding to Federal, State, or other initiatives, including integrated resource planning considered and implemented pursuant to section 111(d) of the Public Utility Regulatory Policies Act of 1978, in evaluating that customer's integrated resource plan under this title, the Administrator shall accept such plan as fulfillment of the requirements of this title to the extent such plan substantially complies with the requirements of this title.

"(d) COMPLIANCE WITH INTEGRATED RESOURCE PLANS.—Within 1 year after the enactment of this section, the Administrator shall, by regulation, revise the Final Amended Guidelines and Acceptance Criteria for Customer Conservation and Renewable Energy Programs published in the Federal Register on August 21, 1985 (50 F.R. 33892), or any subsequent amendments thereto, to require each customer to fully comply with the applicable integrated resource plan and submit an annual report to the Administrator (in such form and containing such information as the Administrator may require) describing the customer's progress to the goals established in such plan. After the initial review under subsection (a) Regulations.

the Administrator shall periodically conduct reviews of a representative sample of applicable integrated resource plans and the customer's implementation of the applicable integrated resource plan to determine if the customers are in compliance with their plans. If the Administrator finds a customer out-of-compliance, the Administrator shall impose a surcharge under this section on all electric energy purchased by the customer from the Western Area Power Administration or reduce such customer's power allocation by 10 percent, unless the Administrator finds that a good faith effort has been made to comply with the approved plan.

"(e) ENFORCEMENT.—

"(1) NO APPROVED PLAN.—If an integrated resource plan for any customer is not submitted before the date 12 months after the guidelines are amended as required under this section or if the plan is disapproved by the Administrator and a revised plan is not resubmitted by the date 9 months after the date of such disapproval, the Administrator shall impose a surcharge of 10 percent of the purchase price on all power obtained by that customer from the Western Area Power Administration after such date. The surcharge shall remain in effect until an integrated resource plan is approved for that customer. If the plan is not submitted for more than one year after the required date, the surcharge shall increase to 20 percent for the second year (or any portion thereof prior to approval of the plan) and to 30 percent thereafter until the plan is submitted or the contract for the purchase of power by such customer from the Western Area Power Administration terminates.

"(2) FAILURE TO COMPLY WITH APPROVED PLAN.—After approval by the Administrator of an applicable integrated resource plan for any customer, the Administrator shall impose a 10 percent surcharge on all power purchased by such customer from the Western Area Power Administration whenever the Administrator determines that such customer's activities are not consistent with the applicable integrated resource plan. The surcharge shall remain in effect until the Administrator determines that the customer's activities are consistent with the applicable integrated resource plan. The surcharge shall be increased to 20 percent if the customer's activities are out of compliance for more than one year and to 30 percent after more than 2 years, except that no surcharge shall be imposed if the customer demonstrates, to the satisfaction of the Administrator, that a good faith effort has been made to comply with the approved plan.

"(3) REDUCTION IN POWER ALLOCATION.—In the case of any customer subject to a surcharge under paragraph (1) or (2), in lieu of imposing such surcharge the Administrator may reduce such customer's power allocation from the Western Area Power Administration by 10 percent. The Administrator shall provide by regulation the terms and conditions under which a power allocation terminated under this subsection may be reinstated.

Regulations.

"(f) INTEGRATED RESOURCE PLANNING COOPERATIVES.—With the approval of the Administrator, customers within any State or region may form integrated resource planning cooperatives for the purposes of complying with this title, and such customers shall be

allowed an additional 6 months to submit an initial integrated resource plan to the Administrator.

"(g) CUSTOMERS WITH MORE THAN 1 CONTRACT.—If more than one long-term firm power service contract exists between the Administrator and a customer, only one integrated resource plan shall be required for that customer under this title.

"(h) PROGRAM REVIEW.—Within 1 year after January 1, 1999, and at appropriate intervals thereafter, the Administrator shall initiate a public process to review the program established by this section. The Administrator is authorized at that time to revise the criteria set forth in section 204(b) to reflect changes, if any, in technology, needs, or other developments.

"SEC. 205. MISCELLANEOUS PROVISIONS. 42 USC 7276c.

"(a) ENVIRONMENTAL IMPACT STATEMENT.—The provisions of the National Environmental Policy Act of 1969 shall apply to actions of the Administrator implementing this title in the same manner and to the same extent as such provisions apply to other major Federal actions significantly affecting the quality of the human environment.

SEC. 115. ENCOURAGEMENT OF INVESTMENTS IN CONSERVATION AND ENERGY EFFICIENCY BY GAS UTILITIES.

(a) DEFINITIONS.—Section 302 of the Public Utility Regulatory Policies Act of 1978 (15 U.S.C. 3202) is amended by adding the following at the end thereof:

"(9) The term 'integrated resource planning' means, in the case of a gas utility, planning by the use of any standard, regulation, practice, or policy to undertake a systematic comparison between demand-side management measures and the supply of gas by a gas utility to minimize life-cycle costs of adequate and reliable utility services to gas consumers. Integrated resource planning shall take into account necessary features for system operation such as diversity, reliability, dispatchability, and other factors of risk and shall treat demand and supply to gas consumers on a consistent and integrated basis.

"(10) The term 'demand-side management' includes energy conservation, energy efficiency, and load management techniques.".

All plans or filings of a State regulated gas utility before a State regulatory authority to meet the requirements of this paragraph shall (A) be updated on a regular basis, (B) provide the opportunity for public participation and comment, (C) provide for methods of validating predicted performance, and (D) contain a requirement that the plan be implemented after approval of the State regulatory authority. Subsection (c) shall not apply to this paragraph to the extent that it could be construed to require the State regulatory authority to extend the record of a State proceeding in submitting reports to the Federal Government.

"(4) INVESTMENTS IN CONSERVATION AND DEMAND MANAGEMENT.—The rates charged by any State regulated gas utility shall be such that the utility's prudent investments in, and expenditures for, energy conservation and load shifting programs and for other demand-side management measures which are consistent with the findings and purposes of the Energy Policy Act of 1992 are at least as profitable (taking into account the income lost due to reduced sales resulting from such programs) as prudent investments in, and expenditures for, the acquisition or construction of supplies and facilities. This objective requires that (A) regulators link the utility's net revenues, at least in part, to the utility's performance in implementing cost-effective programs promoted by this section; and (B) regulators ensure that, for purposes of recovering fixed costs, including its authorized return, the utility's performance is not affected by reductions in its retail sales volumes.".

15 USC 3203.

(c) IMPACT ON SMALL BUSINESS.—Section 303 of such Act is amended by inserting the following new subsection at the end thereof:

"(d) SMALL BUSINESS IMPACTS.—If a State regulatory authority implements a standard established by subsection (b) (3) or (4), such authority shall—

"(1) consider the impact that implementation of such standard would have on small businesses engaged in the design, sale, supply, installation, or servicing of energy conservation, energy efficiency, or other demand-side management measures, and

"(2) implement such standard so as to assure that utility actions would not provide such utilities with unfair competitive advantages over such small businesses.".

(d) EFFECTIVE DATE.—Section 303(a) of such Act is amended by inserting "(or after the enactment of the Energy Policy Act of 1992 in the case of standards under paragraphs (3), and (4) of subsection (b))" after "Act" and by striking out "standard established by subsection (b)(2)" in paragraph (2) and inserting "standards established by paragraphs (2), (3) and (4) of subsection (b)".

The report shall include an analysis, prepared in conjunction with the Federal Trade Commission, of the competitive impact of implementation

of energy conservation, energy efficiency, and other demand side management programs by gas utilities on small businesses engaged in the design, sale, supply, installation, or servicing of similar energy conservation, energy efficiency, or other demand-side management measures and whether any unfair, deceptive, or predatory acts or practices exist, or are likely to exist, from implementation of such programs.

Federal Register, publication.

"(6)(A) If ASHRAE/IES Standard 90.1, as in effect on the date of enactment of the Energy Policy Act of 1992, is amended with respect to any small commercial package air conditioning and heating equipment, large commercial package air conditioning and heat-

ing equipment, packaged terminal air conditioners, packaged terminal heat pumps, warm-air furnaces, packaged boilers, storage water heaters, instantaneous water heaters, or unfired hot water storage tanks, the Secretary shall establish an amended uniform national standard for that product at the minimum level for each effective date specified in the amended ASHRAE/IES Standard 90.1, unless the Secretary determines, by rule published in the Federal Register and supported by clear and convincing evidence, that adoption of a uniform national standard more stringent than such amended ASHRAE/IES Standard 90.1 for such product would result in significant additional conservation of energy and is technologically feasible and economically justified.

"(B)(i) If the Secretary issues a rule containing such a determination, the rule shall establish such amended standard. In determining whether a standard is economically justified for the purposes of subparagraph (A), the Secretary shall, after receiving views and comments furnished with respect to the proposed standard, determine whether the benefits of the standard exceed its burdens by, to the greatest extent practicable, considering—

"(I) the economic impact of the standard on the manufacturers and on the consumers of the products subject to such standard;

"(II) the savings in operating costs throughout the estimated average life of the product in the type (or class) compared to any increase in the price of, or in the initial charges for, or maintenance expenses of, the products which are likely to result from the imposition of the standard;

"(III) the total projected amount of energy savings likely to result directly from the imposition of the standard;

"(IV) any lessening of the utility or the performance of the products likely to result from the imposition of the standard;

"(V) the impact of any lessening of competition, as determined in writing by the Attorney General, that is likely to result from the imposition of the standard;

"(VI) the need for national energy conservation; and

"(VII) other factors the Secretary considers relevant.

"(ii) The Secretary may not prescribe any amended standard under this paragraph which increases the maximum allowable energy use, or decreases the minimum required energy efficiency, of a covered product. The Secretary may not prescribe an amended standard under this subparagraph if the Secretary finds (and publishes such finding) that interested persons have established by a preponderance of the evidence that a standard is likely to result in the unavailability in the United States in any product type (or class) of performance characteristics (including reliability), features, sizes, capacities, and volumes that are substantially the same as those generally available in the United States at the time of the Secretary's finding. The failure of some types (or classes) to meet this criterion shall not affect the Secretary's determination of whether to prescribe a standard for other types or classes.

"(C) A standard amended by the Secretary under this paragraph shall become effective for products manufactured—

"(i) with respect to small commercial package air conditioning and heating equipment, packaged terminal air conditioners, packaged terminal heat pumps, warm-air furnaces, packaged boilers, storage water heaters, instantaneous water heaters, and unfired hot water storage tanks, on or after a

"(ii) standards for such motors would not be technologically feasible or economically justified.

"(B) Not later than one year after the date of the enactment of this subsection, a manufacturer seeking an exemption under this paragraph with respect to a type or class of electric motor developed on or before the date of the enactment of such subsection shall submit a petition to the Secretary requesting such exemption. Such petition shall include evidence that the type or class of motor meets the criteria for exemption specified in subparagraph (A).

"(C) Not later than two years after the date of the enactment of this subsection, the Secretary shall rule on each petition for exemption submitted pursuant to subparagraph (B). In making such ruling, the Secretary shall afford an opportunity for public comment.

"(D) Manufacturers of types or classes of motors developed after the date of the enactment of this subsection to which standards under paragraph (1) would be applicable may petition the Secretary for exemptions from compliance with such standards based on the criteria specified in subparagraph (A).

"(3)(A) The Secretary shall publish a final rule no later than the end of the 24-month period beginning on the effective date of the standards established under paragraph (1) to determine if such standards should be amended. Such rule shall provide that any amendment shall apply to electric motors manufactured on or after a date which is five years after the effective date of the standards established under paragraph (1). Regulations.

"(B) The Secretary shall publish a final rule no later than 24 months after the effective date of the previous final rule to determine whether to amend the standards in effect for such product. (b) LOAN TERMS.—The Secretary, to the extent practicable, shall establish reasonable terms for loans made under this subsection, with preference given to repayment schedules that enable such loans to be repaid by the borrower from the cost differential between gasoline and the alternative fuel on which the motor vehicle operates.

(c) CRITERIA.—In deciding to whom loans shall be made under this subsection, the Secretary shall consider—

(1) the financial need of the applicant;

(2) the goal of assisting the greatest number of applicants; and

(3) the ability of an applicant to repay the loan, taking into account the fuel cost savings likely to accrue to the applicant.

(d) PRIORITIES.—Priority shall be given under this section to fleets where the use of alternative fuels would have a significant beneficial effect on energy security and the environment.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section, $25,000,000 for each of the fiscal years 1993, 1994, and 1995.

TITLE V—AVAILABILITY AND USE OF REPLACEMENT FUELS, ALTERNATIVE FUELS, AND ALTERNATIVE FUELED PRIVATE VEHICLES

SEC. 501. MANDATE FOR ALTERNATIVE FUEL PROVIDERS.

42 USC 13251.

Regulations.

(a) IN GENERAL.—(1) The Secretary shall, before January 1, 1994, issue regulations requiring that of the new light duty motor vehicles acquired by a covered person described in paragraph (2), the following percentages shall be alternative fueled vehicles for the following model years:

(A) 30 percent for model year 1996.

(B) 50 percent for model year 1997.

(C) 70 percent for model year 1998.

(D) 90 percent for model year 1999 and thereafter.

(2) For purposes of this section, a person referred to in paragraph (1) is—

(A) a covered person whose principal business is producing, storing, refining, processing, transporting, distributing, importing, or selling at wholesale or retail any alternative fuel other than electricity;

(B) a non-Federal covered person whose principal business is generating, transmitting, importing, or selling at wholesale or retail electricity; or

(C) a covered person—

(i) who produces, imports, or produces and imports in combination, an average of 50,000 barrels per day or more of petroleum; and

(ii) a substantial portion of whose business is producing alternative fuels.

(3)(A) In the case of a covered person described in paragraph (2) with more than one affiliate, division, or other business unit, only an affiliate, division, or business unit which is substantially engaged in the alternative fuels business (as determined by the Secretary by rule) shall be subject to this subsection.

(B) No covered person or affiliate, division, or other business unit of such person whose principal business is—

(i) transforming alternative fuels into a product that is not an alternative fuel; or

(ii) consuming alternative fuels as a feedstock or fuel in the manufacture of a product that is not an alternative fuel,

shall be subject to this subsection.

(4) The vehicles purchased pursuant to this section shall be operated solely on alternative fuels except when operating in an area where the appropriate alternative fuel is unavailable.

(5) Regulations issued under paragraph (1) shall provide for the prompt exemption by the Secretary, through a simple and reasonable process, from the requirements of paragraph (1) of any covered person, in whole or in part, if such person demonstrates to the satisfaction of the Secretary that—

(A) alternative fueled vehicles that meet the normal requirements and practices of the principal business of that person are not reasonably available for acquisition; or

(B) alternative fuels that meet the normal requirements and practices of the principal business of that person are not available in the area in which the vehicles are to be operated.

(b) REVISIONS AND EXTENSIONS.—With respect to model years 1997 and thereafter, the Secretary may—

(1) revise the percentage requirements under subsection (a)(1) downward, except that under no circumstances shall the percentage requirement for a model year be less than 20 percent; and

(2) extend the time under subsection (a)(1) for up to 2 model years.

Regulations.

(c) OPTION FOR ELECTRIC UTILITIES.—The Secretary shall, within 1 year after the date of enactment of this Act, issue regulations requiring that, in the case of a covered person whose principal business is generating, transmitting, importing, or selling at wholesale or retail electricity, the requirements of subsection (a)(1) shall not apply until after December 31, 1997, with respect to electric motor vehicles. Any covered person described in this subsection which plans to acquire electric motor vehicles to comply with the requirements of this section shall so notify the Secretary before January 1, 1996.

(d) REPORT TO CONGRESS.—The Secretary shall, before January 1, 1998, submit a report to the Congress providing detailed information on actions taken to carry out this section, and the progress made and problems encountered thereunder.

42 USC 13252.

SEC. 502. REPLACEMENT FUEL SUPPLY AND DEMAND PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—The Secretary shall establish a program to promote the development and use in light duty motor vehicles of domestic replacement fuels. Such program shall promote the replacement of petroleum motor fuels with replacement fuels to the maximum extent practicable. Such program shall, to the extent practicable, ensure the availability of those replacement fuels that will have the greatest impact in reducing oil imports,

improving the health of our Nation's economy and reducing greenhouse gas emissions.

(b) DEVELOPMENT PLAN AND PRODUCTION GOALS.—Under the program established under subsection (a), the Secretary, before October 1, 1993, in consultation with the Administrator, the Secretary of Transportation, the Secretary of Agriculture, the Secretary of Commerce, and the heads of other appropriate agencies, shall review appropriate information and—

(1) estimate the domestic and nondomestic production capacity for replacement fuels and alternative fueled vehicles needed to implement this section;

(2) determine the technical and economic feasibility of achieving the goals of producing sufficient replacement fuels to replace, on an energy equivalent basis—

(A) at least 10 percent by the year 2000; and

(B) at least 30 percent by the year 2010,

of the projected consumption of motor fuel in the United States for each such year, with at least one half of such replacement fuels being domestic fuels;

(3) determine the most suitable means and methods of developing and encouraging the production, distribution, and use of replacement fuels and alternative fueled vehicles in a manner that would meet the program goals described in subsection (a);

(4) identify ways to encourage the development of reliable replacement fuels and alternative fueled vehicle industries in the United States, and the technical, economic, and institutional barriers to such development; and

(5) determine the greenhouse gas emission implications of increasing the use of replacement fuels, including an estimate of the maximum feasible reduction in such emissions from the use of replacement fuels.

The Secretary shall publish in the Federal Register the results of actions taken under this subsection, and provide for an opportunity for public comment. Federal Register, publication.

SEC. 503. REPLACEMENT FUEL DEMAND ESTIMATES AND SUPPLY INFORMATION. 42 USC 13253.

(a) ESTIMATES.—Not later than October 1, 1993, and annually thereafter, the Secretary, in consultation with the Administrator, the Secretary of Transportation, and other appropriate State and Federal officials, shall estimate for the following calendar year—

(1) the number of each type of alternative fueled vehicle likely to be in use in the United States;

(2) the probable geographic distribution of such vehicles;

(3) the amount and distribution of each type of replacement fuel; and

(4) the greenhouse gas emissions likely to result from replacement fuel use.

(b) INFORMATION.—Beginning on October 1, 1994, the Secretary shall annually require—

(1) fuel suppliers to report to the Secretary on the amount of each type of replacement fuel that such supplier—

(A) has supplied in the previous calendar year; and

(B) plans to supply for the following calendar year;

(2) suppliers of alternative fueled vehicles to report to the Secretary on the number of each type of alternative fueled vehicle that such supplier—

(A) has made available in the previous calendar year; and

(B) plans to make available for the following calendar year; and

(3) such fuel suppliers to provide the Secretary information necessary to determine the greenhouse gas emissions from the replacement fuels used, taking into account the entire fuel cycle.

(c) PROTECTION OF INFORMATION.—Information provided to the Secretary under subsection (b) shall be subject to applicable provisions of law protecting the confidentiality of trade secrets and business and financial information, including section 1905 of title 18, United States Code.

42 USC 13254.

SEC. 504. MODIFICATION OF GOALS; ADDITIONAL RULEMAKING AUTHORITY.

(a) EXAMINATION OF GOALS.—Within 3 years after the date of enactment of this Act, and periodically thereafter, the Secretary shall examine the goals established under section 502(b)(2), in the context of the program goals stated under section 502(a), to determine if the goals under section 502(b)(2), including the applicable percentage requirements and dates, should be modified under this section. The Secretary shall publish in the Federal Register the results of each examination under this subsection and provide an opportunity for public comment.

Federal Register, publication.

(b) MODIFICATION OF GOALS.—If, after analysis of information obtained in connection with carrying out subsection (a) or section 502, or other information, and taking into account the determination of technical and economic feasibility made under section 502(b)(2), the Secretary determines that goals described in section 502(b)(2), including the percentage requirements or dates, are not achievable, the Secretary, in consultation with appropriate Federal agencies, shall, by rule, establish goals that are achievable, for purposes of this title. The modification of goals under this section may include changing the target dates specified in section 502(b)(2).

(c) ADDITIONAL RULEMAKING AUTHORITY.—If the Secretary determines that the achievement of goals described in section 502(b)(2) would result in a significant and correctable failure to meet the program goals described in section 502(a), the Secretary shall issue such additional regulations as are necessary to remedy such failure. The Secretary shall have no authority under this Act to mandate the production of alternative fueled vehicles or to specify, as applicable, the models, lines, or types of, or marketing or pricing practices, policies, or strategies for, vehicles subject to this Act. Nothing in this Act shall be construed to give the Secretary authority to mandate marketing or pricing practices, policies, or strategies for alternative fuels or to mandate the production or delivery of such fuels.

42 USC 13255.

SEC. 505. VOLUNTARY SUPPLY COMMITMENTS.

The Secretary shall, by January 1, 1994, and thereafter, undertake to obtain voluntary commitments in geographically diverse regions of the United States—

(1) from fuel suppliers to make available to the public replacement fuels, including providing for the construction or availability of related fuel delivery systems;

(2) from owners of 10 or more motor vehicles to acquire and use alternative fueled vehicles and alternative fuels; and

(3) from suppliers of alternative fueled vehicles to make available to the public alternative fueled vehicles and to ensure the availability of necessary related services,

in sufficient volume to achieve the goals described in section 502(b)(2) or as modified under section 504, and in order to meet any fleet requirement program established by rule under this title. The Secretary shall periodically report to the Congress on the results of efforts under this section. All voluntary commitments obtained pursuant to this section shall be available to the public, except to the extent provided in applicable provisions of law protecting the confidentiality of trade secrets and business and financial information, including section 1905 of title 18, United States Code.

SEC. 506. TECHNICAL AND POLICY ANALYSIS. 42 USC 13256.

(a) REQUIREMENT.—Not later than March 1, 1995, and March 1, 1997, the Secretary shall prepare and transmit to the President and the Congress a technical and policy analysis under this section. The Secretary shall utilize the analytical capability and authorities of the Energy Information Administration and such other offices of the Department of Energy as the Secretary considers appropriate.

(b) PURPOSES.—The technical and policy analysis prepared under this section shall be based on the best available data and information obtainable by the Secretary under section 503, or otherwise, and on experience under this title and other provisions of law in the development and use of replacement fuels and alternative fueled vehicles, and shall evaluate—

(1) progress made in achieving the goals described in section 502(b)(2), as modified under section 504;

(2) the actual and potential role of replacement fuels and alternative fueled vehicles in significantly reducing United States reliance on imported oil to the extent of the goals referred to in paragraph (1); and

(3) the actual and potential availability of various domestic replacement fuels and dedicated vehicles and dual fueled vehicles.

(c) PUBLICATION.—The Secretary shall publish a proposed version of each analysis under this section in the Federal Register for public comment before transmittal to the President and the Congress. Public comment received in response to such publication shall be preserved for use in rulemaking proceedings under section 507. Federal Register, publication.

SEC. 507. FLEET REQUIREMENT PROGRAM. 42 USC 13257.

(a) FLEET PROGRAM PURCHASE GOALS.—(1) Except as provided in paragraph (2), the following percentages of new light duty motor vehicles acquired in each model year for a fleet, other than a Federal fleet, State fleet, or fleet owned, operated, leased, or otherwise controlled by a covered person subject to section 501, shall be alternative fueled vehicles:

(A) 20 percent of the motor vehicles acquired in model years 1999, 2000, and 2001;

(B) 30 percent of the motor vehicles acquired in model year 2002;

(C) 40 percent of the motor vehicles acquired in model year 2003;

(D) 50 percent of the motor vehicles acquired in model year 2004;

(E) 60 percent of the motor vehicles acquired in model year 2005; and

(F) 70 percent of the motor vehicles acquired in model year 2006 and thereafter.

(2) The Secretary may not establish percentage requirements higher than those described in paragraph (1). The Secretary may, if appropriate, and pursuant to a rule under subsection (b), establish a lesser percentage requirement for any model year. The Secretary may, by rule, establish a date later than 1998 (or model year 1999) for initiating the fleet requirements under paragraph (1).

Regulations.

(3) The Secretary shall publish an advance notice of proposed rulemaking for the purpose of—

(A) evaluating the progress toward achieving the goals of replacement fuel use described in section 502(b)(2), as modified under section 504;

(B) identifying the problems associated with achieving those goals;

(C) assessing the adequacy and practicability of those goals; and

(D) considering all actions needed to achieve those goals.

The Secretary shall provide for at least 3 regional hearings on the advance notice of proposed rulemaking, with respect to which official transcripts shall be maintained. The comment period in connection with such advance notice of proposed rulemaking shall be completed within 7 months after publication of the advance notice.

Federal Register, publication.

(4) After the completion of such advance notice of proposed rulemaking, the Secretary shall publish in the Federal Register a proposed rule for the rule required under subsection (b), and shall provide for a public comment period, with hearings, of not less than 90 days.

(b) EARLY RULEMAKING.—(1) Not earlier than 1 year after the date of the enactment of this Act, and after carrying out the requirements of subsection (a), the Secretary shall initiate a rulemaking to determine whether a fleet requirement program to begin in calendar year 1998 (when model year 1999 begins), or such other later date as he may select pursuant to subsection (a), is necessary under this section. Such rule, consistent with subsection (a)(1), shall establish the annual applicable model year percentage. No rule under this subsection may be promulgated after December 15, 1996, and be enforceable. A fleet requirement program shall be considered necessary and a rule therefor shall be promulgated if the Secretary finds that—

(A) the goal of replacement fuel use described in section 502(b)(2)(B), as modified under section 504, is not expected to be actually achieved by 2010, or such other date as is established under section 504, by voluntary means or pursuant to this title or any other law without such a fleet requirement program, taking into consideration the status of the achievement of the interim goal described in section 502(b)(2)(A), as modified under section 504;

(B) such goal is practicable and actually achievable within periods specified in section 502(b)(2), as modified under section

504, through implementation of such a fleet requirement program in combination with voluntary means and the application of other programs relevant to achieving such goals; and

(C) by 1998 (when model year 1999 begins) or the date specified by the Secretary in such rule for initiating a fleet requirement program—

(i) there exists sufficient evidence to ensure that the fuel and the needed infrastructure, including the supply and deliverability systems, will be installed and located at convenient places in the fleet areas subject to the rule and will be fully operational when the rule is effective to offer a reliable and timely supply of the applicable alternative fuel at reasonable costs (as compared to conventional fuels) to meet the fleet requirement program, as demonstrated through use of the provisions of section 505(1) of this title regarding voluntary commitments or other adequate, reliable, and convincing forms of agreements, arrangements, or representations that such fuels and infrastructure are in existence or will exist when the rule is effective and will be expanded as the percentages increase annually;

(ii) there will be a sufficient number of new alternative fueled vehicles from original equipment manufacturers that comply with all applicable requirements of the Clean Air Act and the National Traffic and Motor Vehicle Safety Act of 1966;

(iii) such new vehicles will meet the applicable non-Federal and non-State fleet performance requirements of such fleets (including range, passenger or cargo-carrying capacity, reliability, refueling capability, vehicle mix, and economical operation and maintenance); and

(iv) establishment of a fleet requirement program by rule under this subsection will not result in unfair competitive advantages or disadvantages, or result in undue economic hardship, to the affected fleets.

(2) The Secretary shall not promulgate a rule under this subsection if he is unable to make affirmative findings in the case of each of the subparagraphs under paragraph (1), and each of the clauses under subparagraph (C) of paragraph (1).

(3) If the Secretary does not determine that such program is necessary under this subsection, the provisions of subsection (e) shall apply to the consideration in the future of any fleet requirement program. The record of this rulemaking, including the Secretary's findings, shall be incorporated into a rulemaking under that subsection. If the Secretary determines under this subsection that such program is necessary, the Secretary shall not initiate the later rulemaking under subsection (e).

(c) ADVANCE NOTICE OF PROPOSED RULEMAKING.—Not later than April 1, 1998, the Secretary shall publish an advance notice of proposed rulemaking for the purpose of—

(1) evaluating the progress toward achieving the goals of replacement fuel use described in section 502(b)(2), as modified under section 504;

(2) identifying the problems associated with achieving those goals;

(3) assessing the adequacy and practicability of those goals; and

(4) considering all actions needed to achieve those goals. The Secretary shall provide for at least 3 regional hearings on the advance notice of proposed rulemaking, with respect to which official transcripts shall be maintained. The comment period in connection with such advance notice of proposed rulemaking shall be completed within 7 months after publication of the advance notice.

Federal Register, publication.

(d) PROPOSED RULE.—Before May 1, 1999, the Secretary shall publish in the Federal Register a proposed rule for the rule required under subsection (g), and shall provide for a public comment period, with hearings, of not less than 90 days.

(e) DETERMINATION.—(1) Not later than January 1, 2000, the Secretary shall, through the rule required under subsection (g), determine whether a fleet requirement program is necessary under this section. Such a program shall be considered necessary and a rule therefor shall be promulgated if the Secretary finds that—

(A) the goal of replacement fuel use described in section 502(b)(2)(B), as modified under section 504, is not expected to be actually achieved by 2010, or such other date as is established under section 504, by voluntary means or pursuant to this title or any other law without such a fleet requirement program, taking into consideration the status of the achievement of the interim goal described in section 502(b)(2)(A), as modified under section 504; and

(B) such goal is practicable and actually achievable within periods specified in section 502(b)(2), as modified under section 504, through implementation of such a fleet requirement program in combination with voluntary means and the application of other programs relevant to achieving such goals.

(2) The rule under subsection (b) or (g) shall also modify the goal described in section 502(b)(2)(B) and establish a revised goal pursuant to section 504 if the Secretary determines, based on the proceeding required under subsection (a) or (c), that the goal in effect at the time of that proceeding is inadequate or impracticable, and not expected to be achievable. Such goal as modified and established shall be applicable in making the findings described in paragraph (1). If the Secretary modifies the goal under this paragraph, he may also modify the percentages stated in subsection (a)(1) or (g)(1) and the minimum percentage stated in subsection (a)(2) or (g)(2) shall be not less than 10 percent.

(f) EXPLANATION OF DETERMINATION THAT FLEET REQUIREMENT PROGRAM IS NOT NECESSARY.—If the Secretary determines, based on findings under subsection (b) or (e), that a fleet requirement program under this section is not necessary, the Secretary shall—

(1) by December 15, 1996, with respect to a rulemaking under subsection (b); and

(2) by January 1, 2000, with respect to a rulemaking under subsection (e),

publish such determination in the Federal Register as a final agency action, including an explanation of the findings on which such determination is made and the basis for the determination.

(g) FLEET REQUIREMENT PROGRAM.—(1) If the Secretary determines under subsection (e) that a fleet requirement program is necessary, the Secretary shall, by January 1, 2000, by rule require that, except as provided in paragraph (2), of the total number of new light duty motor vehicles acquired for a fleet, other than

a Federal fleet, State fleet, or fleet owned, operated, leased, or otherwise controlled by a covered person under section 501—

(A) 20 percent of the motor vehicles acquired in model year 2002;

(B) 40 percent of the motor vehicles acquired in model year 2003;

(C) 60 percent of the motor vehicles acquired in model year 2004; and

(D) 70 percent of the motor vehicles acquired in model year 2005 and thereafter,

shall be alternative fueled vehicles.

(2) The Secretary may not establish percentage requirements higher than those described in paragraph (1). The Secretary may, if appropriate, and pursuant to a rule under subsection (g), establish a lesser percentage requirement for any model year. The Secretary may, by rule, establish a date later than 2002 (when model year 2003 begins) for initiating the fleet requirements under paragraph (1).

(3) Nothing in this title shall be construed as requiring any fleet to acquire alternative fueled vehicles or alternative fuels that do not meet the normal business requirements and practices and needs of that fleet.

(4) A vehicle operating only on gasoline that complies with applicable requirements of the Clean Air Act shall not be considered an alternative fueled vehicle under subsection (b) or this subsection, except that the Secretary, as part of the rule under subsection (b) or this subsection, may determine that such vehicle should be treated as an alternative fueled vehicle for purposes of this section, for fleets subject to part C of title II of the Clean Air Act, taking into consideration the impact on energy security and the goals stated in section 502(a).

(h) EXTENSION OF DEADLINES.—The Secretary may, by notice published in the Federal Register, extend the deadlines established under subsections (e), (f)(2), and (g) for an additional 90 days if the Secretary is unable to meet such deadlines. Such extension shall not be reviewable.

(i) EXEMPTIONS.—(1) A rule issued under subsection (b), (g), or (o) shall provide for the prompt exemption by the Secretary, through a simple and reasonable process, of any fleet from the requirements of subsection (b), (g), or (o), in whole or in part, if it is demonstrated to the satisfaction of the Secretary that—

(A) alternative fueled vehicles that meet the normal requirements and practices of the principal business of the fleet owner are not reasonably available for acquisition;

(B) alternative fuels that meet the normal requirements and practices of the principal business of the fleet owner are not available in the area in which the vehicles are to be operated; or

(C) in the case of State and local government entities, the application of such requirements would pose an unreasonable financial hardship.

(2) In the case of private fleets, if the motor vehicles, when under normal operations, are garaged at personal residences at night, such motor vehicles shall be exempt from the requirements of subsections (b) and (g).

(j) CONVERSIONS.—Nothing in this title or the amendments made by this title shall require a fleet owner to acquire conversion vehicles.

(k) INCLUSION OF LAW ENFORCEMENT VEHICLES AND URBAN BUSES.—(1) If the Secretary determines, by rule, that the inclusion of fleets of law enforcement motor vehicles in the fleet requirement program established under subsection (g) would contribute to achieving the goal described in section 502(b)(2)(B), as modified under section 504, and the Secretary finds that such inclusion would not hinder the use of the motor vehicles for law enforcement purposes, the Secretary may include such fleets in such program. The Secretary may only initiate one rulemaking under this paragraph.

(2) If the Secretary determines, by rule, that the inclusion of new urban buses, as defined by the Administrator under title II of the Clean Air Act, in a fleet requirement program established under subsection (g) would contribute to achieving the goal described in section 502(b)(2)(B), as modified under section 504, the Secretary may include such urban buses in such program, if the Secretary finds that such application will be consistent with energy security goals and the needs and objectives of encouraging and facilitating the greater use of such urban buses by the public, taking into consideration the impact of such application on public transit entities. The Secretary may only initiate one rulemaking under this paragraph.

(3) Rulemakings under paragraph (1) or (2) shall be separate from a rulemaking under subsection (g), but may not occur unless a rulemaking is carried out under subsection (g).

(l) CONSIDERATION OF FACTORS.—In carrying out this section, the Secretary shall take into consideration energy security, costs, safety, lead time requirements, vehicle miles traveled annually, effect on greenhouse gases, technological feasibility, energy requirements, economic impacts, including impacts on workers and the impact on consumers (including users of the alternative fuel for purposes such as for residences, agriculture, process use, and nonfuel purposes) and fleets, the availability of alternative fuels and alternative fueled vehicles, and other relevant factors.

(m) CONSULTATION AND PARTICIPATION OF OTHER FEDERAL AGENCIES.—In carrying out this section and section 506, the Secretary shall consult with the Secretary of Transportation, the Administrator, and other appropriate Federal agencies. The Secretary shall provide for the participation of the Secretary of Transportation and the Administrator in the development and issuance of the rule under this section, including the public process concerning such rule.

(n) PETITIONS.—As part of the rule promulgated either pursuant to subsection (b) or (g) of this section, the Secretary shall establish procedures for any fleet owner or operator or motor vehicle manufacturer to request that the Secretary modify or suspend a fleet requirement program established under either subsection nationally, by region, or in an applicable fleet area because, as demonstrated by the petitioner, the infrastructure or fuel supply or distribution system for an applicable alternative fuel is inadequate to meet the needs of a fleet. In the event that the Secretary determines that a modification or suspension of the fleet requirement program on a regional basis would detract from the nationwide character of any fleet requirement program established by rule

or would sufficiently diminish the economies of scale for the production of alternative fueled vehicles or alternative fuels and thereafter the practicability and effectiveness of such program, the Secretary may only modify or suspend the program nationally. The procedures shall include provisions for notice and public hearings. The Secretary shall deny or grant the petition within 180 days after filing.

(o) MANDATORY STATE FLEET PROGRAMS.—(1) Pursuant to a rule promulgated by the Secretary, beginning in calendar year 1995 (when model year 1996 begins), the following percentages of new light duty motor vehicles acquired annually for State government fleets, including agencies thereof, but not municipal fleets, shall be alternative fueled vehicles:

(A) 10 percent of the motor vehicles acquired in model year 1996;

(B) 15 percent of the motor vehicles acquired in model year 1997;

(C) 25 percent of the motor vehicles acquired in model year 1998;

(D) 50 percent of the motor vehicles acquired in model year 1999;

(E) 75 percent of the motor vehicles acquired in model year 2000 and thereafter.

(2)(A) The Secretary shall within 18 months after the date of the enactment of this Act promulgate a rule providing that a State may submit a plan within 12 months after such promulgation containing a light duty alternative fueled vehicle plan for State fleets to meet the annual percentages established under paragraph (1) for the acquisition of light duty motor vehicles. The plan shall provide for the voluntary conversion or acquisition or combination thereof, beyond any acquisition required by this title, of such motor vehicles by State, local, or private fleets, in numbers greater than or equal to the number of State alternative fueled vehicles required pursuant to paragraph (1). Regulations.

(B) The plan, if approved by the Secretary, would be in lieu of the State meeting such annual percentages solely through purchases of new State-owned vehicles. All conversions or acquisitions or combinations thereof of any alternative fueled vehicles under the plan must be voluntary and must conform with the requirements of section 247 of the Clean Air Act and must comply with applicable safety requirements. The Secretary of Transportation shall within 3 years after enactment promulgate rules setting forth safety standards in accordance with the National Traffic and Motor Vehicle Safety Act of 1966 applicable to all conversions.

SEC. 508. CREDITS. 42 USC 13258.

(a) IN GENERAL.—The Secretary shall allocate a credit to a fleet or covered person that is required to acquire an alternative fueled vehicle under this title, if that fleet or person acquires an alternative fueled vehicle in excess of the number that fleet or person is required to acquire under this title or acquires an alternative fueled vehicle before the date that fleet or person is required to acquire an alternative fueled vehicle under such title.

(b) ALLOCATION.—In allocating credits under subsection (a), the Secretary shall allocate one credit for each alternative fueled vehicle the fleet or covered person acquires that exceeds the number of alternative fueled vehicles that fleet or person is required to acquire under this title or that is acquired before the date that

fleet or person is required to acquire an alternative fueled vehicle under such title. In the event that a vehicle is acquired before the date otherwise required, the Secretary shall allocate one credit per vehicle for each year the vehicle is acquired before the required date. The credit shall be allocated for the same type vehicle as the excess vehicle or earlier acquired vehicle.

(c) USE OF CREDITS.—At the request of a fleet or covered person allocated a credit under this section, the Secretary shall treat the credit as the acquisition of one alternative fueled vehicle of the type for which the credit is allocated in the year designated by that fleet or person when determining whether that fleet or person has complied with this title in the year designated. A credit may be counted toward compliance for only one year.

(d) TRANSFERABILITY.—A fleet or covered person allocated a credit under this section or to whom a credit is transferred under this section, may transfer freely the credit to another fleet or person who is required to comply with this title. At the request of the fleet or person to whom a credit is transferred, the Secretary shall treat the transferred credit as the acquisition of one alternative fueled vehicle of the type for which the credit is allocated in the year designated by the fleet or person to whom the credit is transferred when determining whether that fleet or person has complied with this title in the year designated. A transferred credit may be counted toward compliance for only one year. In the case of the alternative fuel provider program under section 501, a transferred credit may be counted toward compliance only if the requirement of section 501(a)(4) is met.

42 USC 13259.

SEC. 509. SECRETARY'S RECOMMENDATIONS TO CONGRESS.

(a) RECOMMENDATIONS TO REQUIRE AVAILABILITY OR ACQUISITION.—If the Secretary determines, under section 507(f), that a fleet requirement program under section 507 is not necessary, the Secretary shall so notify the Congress. If the Secretary so notifies the Congress, the Secretary shall, within 2 years after such notification and by rule, prepare and submit to the Congress recommendations for requirements or incentives for—

(1) fuel suppliers to make available to the public replacement fuels, including providing for the construction or availability of related fuel delivery systems;

(2) suppliers of alternative fueled vehicles to make available to the public alternative fueled vehicles and to ensure the availability of necessary related services; and

(3) motor vehicle drivers to use replacement fuels,

to the extent necessary to achieve such goals of replacement fuel use and to ensure that the availability of alternative fuels and of alternative fueled vehicles are consistent with each other.

(b) FAIR AND EQUITABLE APPLICATION.—In carrying out this section, the Secretary shall recommend the imposition of requirements proportionately on all appropriate fuel suppliers and purchasers of motor fuels and suppliers and purchasers of motor vehicles in a fair and equitable manner.

42 USC 13260.

SEC. 510. EFFECT ON OTHER LAWS.

(a) IN GENERAL.—Nothing in this Act or the amendments made by this Act shall be construed to alter, affect, or modify the provisions of the Clean Air Act, or regulations issued thereunder.

(b) COMPLIANCE BY ALTERNATIVE FUELED VEHICLES.—Alternative fueled vehicles, whether dedicated vehicles or dual fueled

vehicles, and the alternative fuels for operating such vehicles, shall comply with requirements of the Clean Air Act applicable to such vehicles and fuels.

SEC. 511. PROHIBITED ACTS. 42 USC 13261.

It shall be unlawful for any person to violate any provision of section 501, 503(b), or 507, or any regulation issued under such sections.

(1) results from research and development activities conducted under this title; and

(2) would be a trade secret or commercial or financial information that is privileged or confidential if the information had been obtained from a participant,

TITLE VII—ELECTRICITY

Subtitle A—Exempt Wholesale Generators

SEC. 711. PUBLIC UTILITY HOLDING COMPANY ACT REFORM.

The Public Utility Holding Company Act of 1935 (15 U.S.C. 79 and following) is amended by redesignating sections 32 and 33 as sections 34 and 35 respectively and by adding the following new section after section 31: 15 USC 79, 79z-6.

"SEC. 32. EXEMPT WHOLESALE GENERATORS. 15 USC 79z-5a.

"(a) DEFINITIONS.—For purposes of this section—

"(1) EXEMPT WHOLESALE GENERATOR.—The term 'exempt wholesale generator' means any person determined by the Fed-

eral Energy Regulatory Commission to be engaged directly, or indirectly through one or more affiliates as defined in section 2(a)(11)(B), and exclusively in the business of owning or operating, or both owning and operating, all or part of one or more eligible facilities and selling electric energy at wholesale. No person shall be deemed to be an exempt wholesale generator under this section unless such person has applied to the Federal Energy Regulatory Commission for a determination under this paragraph. A person applying in good faith for such a determination shall be deemed an exempt wholesale generator under this section, with all of the exemptions provided by this section, until the Federal Energy Regulatory Commission makes such determination. The Federal Energy Regulatory Commission shall make such determination within 60 days of its receipt of such application and shall notify the Commission whenever a determination is made under this paragraph that any person is an exempt wholesale generator. Not later than 12 months after the date of enactment of this section, the Federal Energy Regulatory Commission shall promulgate rules implementing the provisions of this paragraph. Applications for determination filed after the effective date of such rules shall be subject thereto.

Regulations.

"(2) ELIGIBLE FACILITY.—The term 'eligible facility' means a facility, wherever located, which is either—

"(A) used for the generation of electric energy exclusively for sale at wholesale, or

"(B) used for the generation of electric energy and leased to one or more public utility companies; *Provided*, That any such lease shall be treated as a sale of electric energy at wholesale for purposes of sections 205 and 206 of the Federal Power Act.

Such term shall not include any facility for which consent is required under subsection (c) if such consent has not been obtained. Such term includes interconnecting transmission facilities necessary to effect a sale of electric energy at wholesale. For purposes of this paragraph, the term 'facility' may include a portion of a facility subject to the limitations of subsection (d) and shall include a facility the construction of which has not been commenced or completed.

"(3) SALE OF ELECTRIC ENERGY AT WHOLESALE.—The term 'sale of electric energy at wholesale' shall have the same meaning as provided in section 201(d) of the Federal Power Act (16 U.S.C. 824(d)).

"(4) RETAIL RATES AND CHARGES.—The term 'retail rates and charges' means rates and charges for the sale of electric energy directly to consumers.

"(b) FOREIGN RETAIL SALES.—Notwithstanding paragraphs (1) and (2) of subsection (a), retail sales of electric energy produced by a facility located in a foreign country shall not prevent such facility from being an eligible facility, or prevent a person owning or operating, or both owning and operating, such facility from being an exempt wholesale generator if none of the electric energy generated by such facility is sold to consumers in the United States.

"(c) STATE CONSENT FOR EXISTING RATE-BASED FACILITIES.—If a rate or charge for, or in connection with, the construction of a facility, or for electric energy produced by a facility (other than any portion of a rate or charge which represents recovery

of the cost of a wholesale rate or charge) was in effect under the laws of any State as of the date of enactment of this section, in order for the facility to be considered an eligible facility, every State commission having jurisdiction over any such rate or charge must make a specific determination that allowing such facility to be an eligible facility (1) will benefit consumers, (2) is in the public interest, and (3) does not violate State law; *Provided,* That in the case of such a rate or charge which is a rate or charge of an affiliate of a registered holding company:

"(A) such determination with respect to the facility in question shall be required from every State commission having jurisdiction over the retail rates and charges of the affiliates of such registered holding company; and

"(B) the approval of the Commission under this Act shall not be required for the transfer of the facility to an exempt wholesale generator.

"(d) HYBRIDS.—(1) No exempt wholesale generator may own or operate a portion of any facility if any other portion of the facility is owned or operated by an electric utility company that is an affiliate or associate company of such exempt wholesale generator.

"(2) ELIGIBLE FACILITY.—Notwithstanding paragraph (1), an exempt wholesale generator may own or operate a portion of a facility identified in paragraph (1) if such portion has become an eligible facility as a result of the operation of subsection (c).

"(e) EXEMPTION OF EWGS.—An exempt wholesale generator shall not be considered an electric utility company under section 2(a)(3) of this Act and, whether or not a subsidiary company, an affiliate, or an associate company of a holding company, an exempt wholesale generator shall be exempt from all provisions of this Act.

"(f) OWNERSHIP OF EWGS BY EXEMPT HOLDING COMPANIES.—Notwithstanding any provision of this Act, a holding company that is exempt under section 3 of this Act shall be permitted, without condition or limitation under this Act, to acquire and maintain an interest in the business of one or more exempt wholesale generators.

"(g) OWNERSHIP OF EWGS BY REGISTERED HOLDING COMPANIES.—Notwithstanding any provision of this Act and the Commission's jurisdiction as provided under subsection (h) of this section, a registered holding company shall be permitted (without the need to apply for, or receive, approval from the Commission, and otherwise without condition under this Act) to acquire and hold the securities, or an interest in the business, of one or more exempt wholesale generators.

"(h) FINANCING AND OTHER RELATIONSHIPS BETWEEN EWGS AND REGISTERED HOLDING COMPANIES.—The issuance of securities by a registered holding company for purposes of financing the acquisition of an exempt wholesale generator, the guarantee of securities of an exempt wholesale generator by a registered holding company, the entering into service, sales or construction contracts, and the creation or maintenance of any other relationship in addition to that described in subsection (g) between an exempt wholesale generator and a registered holding company, its affiliates and associate companies, shall remain subject to the jurisdiction of the Commission under this Act: *Provided,* That—

"(1) section 11 of this Act shall not prohibit the ownership of an interest in the business of one or more exempt wholesale generators by a registered holding company (regardless of where facilities owned or operated by such exempt wholesale generators are located), and such ownership by a registered holding company shall be deemed consistent with the operation of an integrated public utility system;

"(2) the ownership of an interest in the business of one or more exempt wholesale generators by a registered holding company (regardless of where facilities owned or operated by such exempt wholesale generators are located) shall be considered as reasonably incidental, or economically necessary or appropriate, to the operations of an integrated public utility system;

"(3) in determining whether to approve (A) the issue or sale of a security by a registered holding company for purposes of financing the acquisition of an exempt wholesale generator, or (B) the guarantee of a security of an exempt wholesale generator by a registered holding company, the Commission shall not make a finding that such security is not reasonably adapted to the earning power of such company or to the security structure of such company and other companies in the same holding company system, or that the circumstances are such as to constitute the making of such guarantee an improper risk for such company, unless the Commission first finds that the issue or sale of such security, or the making of the guarantee, would have a substantial adverse impact on the financial integrity of the registered holding company system;

"(4) in determining whether to approve (A) the issue or sale of a security by a registered holding company for purposes other than the acquisition of an exempt wholesale generator, or (B) other transactions by such registered holding company or by its subsidiaries other than with respect to exempt wholesale generators, the Commission shall not consider the effect of the capitalization or earnings of any subsidiary which is an exempt wholesale generator upon the registered holding company system, unless the approval of the issue or sale or other transaction, together with the effect of such capitalization and earnings, would have a substantial adverse impact on the financial integrity of the registered holding company system;

"(5) the Commission shall make its decision under paragraph (3) to approve or disapprove the issue or sale of a security or the guarantee of a security within 120 days of the filing of a declaration concerning such issue, sale or guarantee; and

"(6) the Commission shall promulgate regulations with respect to the actions which would be considered, for purposes of this subsection, to have a substantial adverse impact on the financial integrity of the registered holding company system; such regulations shall ensure that the action has no adverse impact on any utility subsidiary or its customers, or on the ability of State commissions to protect such subsidiary or customers, and shall take into account the amount and type of capital invested in exempt wholesale generators, the ratio of such capital to the total capital invested in utility operations, the availability of books and records, and the financial and operating experience of the registered holding company

and the exempt wholesale generator; the Commission shall promulgate such regulations within 6 months after the enactment of this section; after such 6-month period the Commission shall not approve any actions under paragraph (3), (4) or (5) except in accordance with such issued regulations.

"(i) APPLICATION OF ACT TO OTHER ELIGIBLE FACILITIES.—In the case of any person engaged directly and exclusively in the business of owning or operating (or both owning and operating) all or part of one or more eligible facilities, an advisory letter issued by the Commission staff under this Act after the date of enactment of this section, or an order issued by the Commission under this Act after the date of enactment of this section, shall not be required for the purpose, or have the effect, of exempting such person from treatment as an electric utility company under section 2(a)(3) or exempting such person from any provision of this Act.

"(j) OWNERSHIP OF EXEMPT WHOLESALE GENERATORS AND QUALIFYING FACILITIES.—The ownership by a person of one or more exempt wholesale generators shall not result in such person being considered as being primarily engaged in the generation or sale of electric power within the meaning of sections 3(17)(C)(ii) and 3(18)(B)(ii) of the Federal Power Act (16 U.S.C. 796(17)(C)(ii) and 796(18)(B)(ii)).

"(k) PROTECTION AGAINST ABUSIVE AFFILIATE TRANSACTIONS.—

"(1) PROHIBITION.—After the date of enactment of this section, an electric utility company may not enter into a contract to purchase electric energy at wholesale from an exempt wholesale generator if the exempt wholesale generator is an affiliate or associate company of the electric utility company.

"(2) STATE AUTHORITY TO EXEMPT FROM PROHIBITION.—Notwithstanding paragraph (1), an electric utility company may enter into a contract to purchase electric energy at wholesale from an exempt wholesale generator that is an affiliate or associate company of the electric utility company—

"(A) if every State commission having jurisdiction over the retail rates of such electric utility company makes each of the following specific determinations in advance of the electric utility company entering into such contract:

"(i) A determination that such commission has sufficient regulatory authority, resources and access to books and records of the electric utility company and any relevant associate, affiliate or subsidiary company to exercise its duties under this subparagraph.

"(ii) A determination that the transaction—

"(I) will benefit consumers,

"(II) does not violate any State law (including where applicable, least cost planning),

"(III) would not provide the exempt wholesale generator any unfair competitive advantage by virtue of its affiliation or association with the electric utility company, and

"(IV) is in the public interest; or

"(B) if such electric utility company is not subject to State commission retail rate regulation and the purchased electric energy:

"(i) would not be resold to any affiliate or associate company, or

"(ii) the purchased electric energy would be resold to an affiliate or associate company and every State commission having jurisdiction over the retail rates of such affiliate or associate company makes each of the determinations provided under subparagraph (A), including the determination concerning a State commission's duties.

"(l) RECIPROCAL ARRANGEMENTS PROHIBITED.—Reciprocal arrangements among companies that are not affiliates or associate companies of each other that are entered into in order to avoid the provisions of this section are prohibited.".

SEC. 712. STATE CONSIDERATION OF THE EFFECTS OF POWER PURCHASES ON UTILITY COST OF CAPITAL; CONSIDERATION OF THE EFFECTS OF LEVERAGED CAPITAL STRUCTURES ON THE RELIABILITY OF WHOLESALE POWER SELLERS; AND CONSIDERATION OF ADEQUATE FUEL SUPPLIES.

16 USC 2621.

Section 111 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 and following) is amended by inserting the following new paragraph after paragraph (9):

"(10) CONSIDERATION OF THE EFFECTS OF WHOLESALE POWER PURCHASES ON UTILITY COST OF CAPITAL; EFFECTS OF LEVERAGED CAPITAL STRUCTURES ON THE RELIABILITY OF WHOLESALE POWER SELLERS; AND ASSURANCE OF ADEQUATE FUEL SUPPLIES.—(A) To the extent that a State regulatory authority requires or allows electric utilities for which it has ratemaking authority to consider the purchase of long-term wholesale power supplies as a means of meeting electric demand, such authority shall perform a general evaluation of:

"(i) the potential for increases or decreases in the costs of capital for such utilities, and any resulting increases or decreases in the retail rates paid by electric consumers, that may result from purchases of long-term wholesale power supplies in lieu of the construction of new generation facilities by such utilities;

"(ii) whether the use by exempt wholesale generators (as defined in section 32 of the Public Utility Holding Company Act of 1935) of capital structures which employ proportionally greater amounts of debt than the capital structures of such utilities threatens reliability or provides an unfair advantage for exempt wholesale generators over such utilities;

"(iii) whether to implement procedures for the advance approval or disapproval of the purchase of a particular long-term wholesale power supply; and

"(iv) whether to require as a condition for the approval of the purchase of power that there be reasonable assurances of fuel supply adequacy.

"(B) For purposes of implementing the provisions of this paragraph, any reference contained in this section to the date of enactment of the Public Utility Regulatory Policies Act of 1978 shall be deemed to be a reference to the date of enactment of this paragraph.

"(C) Notwithstanding any other provision of Federal law, nothing in this paragraph shall prevent a State regulatory authority from taking such action, including action with respect to the allowable capital structure of exempt wholesale genera-

tors, as such State regulatory authority may determine to be in the public interest as a result of performing evaluations under the standards of subparagraph (A).

"(D) Notwithstanding section 124 and paragraphs (1) and (2) of section 112(a), each State regulatory authority shall consider and make a determination concerning the standards of subparagraph (A) in accordance with the requirements of subsections (a) and (b) of this section, without regard to any proceedings commenced prior to the enactment of this paragraph.

"(E) Notwithstanding subsections (b) and (c) of section 112, each State regulatory authority shall consider and make a determination concerning whether it is appropriate to implement the standards set out in subparagraph (A) not later than one year after the date of enactment of this paragraph.".

"SEC. 2. Nothing herein shall be construed to affect the applicability of section 3(17)(C) or section 3(18)(B) of the Federal Power Act or any provision of the Public Utility Holding Company Act of 1935, other than section 11(b)(1), to the acquisition or retention of any such interest by any such company.".

"(A) an electric utility company subject to its regulatory authority under State law,

"(B) any exempt wholesale generator selling energy at wholesale to such electric utility, and

"(C) any electric utility company, or holding company thereof, which is an associate company or affiliate of an exempt wholesale generator which sells electric energy to an electric utility company referred to in subparagraph (A),

wherever located, if such examination is required for the effective discharge of the State commission's regulatory responsibilities affecting the provision of electric service.

"(2) Where a State commission issues an order pursuant to paragraph (1), the State commission shall not publicly disclose trade secrets or sensitive commercial information.

"(3) Any United States district court located in the State in which the State commission referred to in paragraph (1) is located shall have jurisdiction to enforce compliance with this subsection.

"(4) Nothing in this section shall—

"(A) preempt applicable State law concerning the provision of records and other information; or

"(B) in any way limit rights to obtain records and other information under Federal law, contracts, or otherwise.

"(5) As used in this subsection the terms 'affiliate', 'associate company', 'electric utility company', 'holding company', 'subsidiary company', and 'exempt wholesale generator' shall have the same meaning as when used in the Public Utility Holding Company Act of 1935.".

SEC. 715. INVESTMENT IN FOREIGN UTILITIES.

The Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.) is amended by inserting after section 32 the following new section:

15 USC 79z-5b.

"SEC. 33. TREATMENT OF FOREIGN UTILITIES.

"(a) EXEMPTIONS FOR FOREIGN UTILITY COMPANIES.—

"(1) IN GENERAL.—A foreign utility company shall be exempt from all of the provisions of this Act, except as otherwise provided under this section, and shall not, for any purpose under this Act, be deemed to be a public utility company under section 2(a)(5), notwithstanding that the foreign utility company may be a subsidiary company, an affiliate, or an associate company of a holding company or of a public utility company.

"(2) STATE COMMISSION CERTIFICATION.—Section (a)(1) shall not apply or be effective unless every State commission having jurisdiction over the retail electric or gas rates of a public utility company that is an associate company or an affiliate of a company otherwise exempted under section (a)(1) (other than a public utility company that is an associate company or an affiliate of a registered holding company) has certified to the Commission that it has the authority and resources to protect ratepayers subject to its jurisdiction and that it intends to exercise its authority. Such certification, upon the filing of a notice by such State commission, may be revised or withdrawn by the State commission prospectively as to any future acquisition. The requirement of State certification shall be deemed satisfied if the relevant State commission had, prior to the date of enactment of this section, on the basis of prescribed conditions of general applicability, determined that ratepayers of a public utility company are adequately insulated from the effects of diversification and the diversification would not impair the ability of the State commission to regulate effectively the operations of such company.

"(3) DEFINITION.—For purposes of this section, the term 'foreign utility company' means any company that—

"(A) owns or operates facilities that are not located in any State and that are used for the generation, transmission, or distribution of electric energy for sale or the distribution at retail of natural or manufactured gas for heat, light, or power, if such company—

"(i) derives no part of its income, directly or indirectly, from the generation, transmission, or dis-

tribution of electric energy for sale or the distribution at retail of natural or manufactured gas for heat, light, or power, within the United States; and

"(ii) neither the company nor any of its subsidiary companies is a public utility company operating in the United States; and

"(B) provides notice to the Commission, in such form as the Commission may prescribe, that such company is a foreign utility company.

"(b) OWNERSHIP OF FOREIGN UTILITY COMPANIES BY EXEMPT HOLDING COMPANIES.—Notwithstanding any provision of this Act except as provided under this section, a holding company that is exempt under section 3 of the Act shall be permitted without condition or limitation under the Act to acquire and maintain an interest in the business of one or more foreign utility companies.

"(c) REGISTERED HOLDING COMPANIES.—

"(1) OWNERSHIP OF FOREIGN UTILITY COMPANIES BY REGISTERED HOLDING COMPANIES.—Notwithstanding any provision of this Act except as otherwise provided under this section, a registered holding company shall be permitted as of the date of enactment of this section (without the need to apply for, or receive approval from the Commission) to acquire and hold the securities or an interest in the business, of one or more foreign utility companies. The Commission shall promulgate rules or regulations regarding registered holding companies' acquisition of interests in foreign utility companies which shall provide for the protection of the customers of a public utility company which is an associate company of a foreign utility company and the maintenance of the financial integrity of the registered holding company system. Regulations.

"(2) ISSUANCE OF SECURITIES.—The issuance of securities by a registered holding company for purposes of financing the acquisition of a foreign utility company, the guarantee of securities of a foreign utility company by a registered holding company, the entering into service, sales, or construction contracts, and the creation or maintenance of any other relationship between a foreign utility company and a registered holding company, its affiliates and associate companies, shall remain subject to the jurisdiction of the Commission under this Act (unless otherwise exempted under this Act, in the case of a transaction with an affiliate or associate company located outside of the United States). Any State commission with jurisdiction over the retail rates of a public utility company which is part of a registered holding company system may make such recommendations to the Commission regarding the registered holding company's relationship to a foreign utility company, and the Commission shall reasonably and fully consider such State recommendation.

"(3) CONSTRUCTION.—Any interest in the business of 1 or more foreign utility companies, or 1 or more companies organized exclusively to own, directly or indirectly, the securities or other interest in a foreign utility company, shall for all purposes of this Act, be considered to be—

"(A) consistent with the operation of a single integrated public utility system, within the meaning of section 11; and

"(B) reasonably incidental, or economically necessary or appropriate, to the operations of an integrated public utility system, within the meaning of section 11.

"(d) EFFECT ON EXISTING LAW; NO STATE PREEMPTION.—Nothing in this section shall—

"(1) preclude any person from qualifying for or maintaining any exemption otherwise provided for under this Act or the rules, regulations, or orders promulgated or issued under this Act; or

"(2) be deemed or construed to limit the authority of any State (including any State regulatory authority) with respect to—

"(A) any public utility company or holding company subject to such State's jurisdiction; or

"(B) any transaction between any foreign utility company (or any affiliate or associate company thereof) and any public utility company or holding company subject to such State's jurisdiction.

"(e) REPORTING REQUIREMENTS.—

"(1) FILING OF REPORTS.—A public utility company that is an associate company of a foreign utility company shall file with the Commission such reports (with respect to such foreign utility company) as the Commission may by rules, regulations, or order prescribe as necessary or appropriate in the public interest or for the protection of investors or consumers.

"(2) NOTICE OF ACQUISITIONS.—Not later than 30 days after the consummation of the acquisition of an interest in a foreign utility company by an associate company of a public utility company that is subject to the jurisdiction of a State commission with respect to its retail electric or gas rates or by such public utility company, such associate company or such public utility company, shall provide notice of such acquisition to every State commission having jurisdiction over the retail electric or gas rates of such public utility company, in such form as may be prescribed by the State commission.

"(f) PROHIBITION ON ASSUMPTION OF LIABILITIES.—

"(1) IN GENERAL.—No public utility company that is subject to the jurisdiction of a State commission with respect to its retail electric or gas rates shall issue any security for the purpose of financing the acquisition, or for the purposes of financing the ownership or operation, of a foreign utility company, nor shall any such public utility company assume any obligation or liability as guarantor, endorser, surety, or otherwise in respect of any security of a foreign utility company.

"(2) EXCEPTION FOR HOLDING COMPANIES WHICH ARE PREDOMINANTLY PUBLIC UTILITY COMPANIES.—Subsection (f)(1) shall not apply if:

"(A) the public utility company that is subject to the jurisdiction of a State commission with respect to its retail electric or gas rates is a holding company and is not an affiliate under section 2(a)(11)(B) of another holding company or is not subject to regulation as a holding company and has no affiliate as defined in section 2(a)(11)(A) that is a public utility company subject to the jurisdiction of a State commission with respect to its retail electric or gas rates; and

"(B) each State commission having jurisdiction with respect to the retail electric and gas rates of such public utility company expressly permits such public utility to engage in a transaction otherwise prohibited under section (f)(1); and

"(C) the transaction (aggregated with all other then-outstanding transactions exempted under this subsection) does not exceed 5 per centum of the then-outstanding total capitalization of the public utility.

"(g) PROHIBITION ON PLEDGING OR ENCUMBERING UTILITY ASSETS.—No public utility company that is subject to the jurisdiction of a State commission with respect to its retail electric or gas rates shall pledge or encumber any utility assets or utility assets of any subsidiary thereof for the benefit of an associate foreign utility company.".

Subtitle B—Federal Power Act; Interstate Commerce in Electricity

SEC. 721. AMENDMENTS TO SECTION 211 OF FEDERAL POWER ACT.

Section 211 of the Federal Power Act (16 U.S.C. 824j) is amended as follows:

(1) The first sentence of subsection (a) is amended to read as follows: "Any electric utility, Federal power marketing agency, or any other person generating electric energy for sale for resale, may apply to the Commission for an order under this subsection requiring a transmitting utility to provide transmission services (including any enlargement of transmission capacity necessary to provide such services) to the applicant.".

(2) In the second sentence of subsection (a), strike "the Commission may" and all that follows and insert "the Commission may issue such order if it finds that such order meets the requirements of section 212, and would otherwise be in the public interest. No order may be issued under this subsection unless the applicant has made a request for transmission services to the transmitting utility that would be the subject of such order at least 60 days prior to its filing of an application for such order.".

(3) Amend subsection (b) to read as follows:

"(b) RELIABILITY OF ELECTRIC SERVICE.—No order may be issued under this section or section 210 if, after giving consideration to consistently applied regional or national reliability standards, guidelines, or criteria, the Commission finds that such order would unreasonably impair the continued reliability of electric systems affected by the order.".

(4) In subsection (c)—

(A) Strike out paragraph (1).

(B) In paragraph (2) strike "which requires the electric" and insert "which requires the transmitting".

(C) Strike out paragraphs (3) and (4).

(5) In subsection (d)—

(A) In the first sentence of paragraph (1), strike "electric" and insert "transmitting" in each place it appears.

(B) In the second sentence of paragraph (1) before "and each affected electric utility," insert "each affected transmitting utility,".

(C) In paragraph (3), strike "electric" and insert "transmitting".

(D) Strike the period in subparagraph (B) of paragraph (1) and insert ", or" and after subparagraph (B) insert the following new subparagraph:

"(C) the ordered transmission services require enlargement of transmission capacity and the transmitting utility subject to the order has failed, after making a good faith effort, to obtain the necessary approvals or property rights under applicable Federal, State, and local laws.".

SEC. 722. TRANSMISSION SERVICES.

16 USC 824k.

Section 212 of the Federal Power Act is amended as follows:

(1) Strike subsections (a) and (b) and insert the following:

"(a) RATES, CHARGES, TERMS, AND CONDITIONS FOR WHOLESALE TRANSMISSION SERVICES.—An order under section 211 shall require the transmitting utility subject to the order to provide wholesale transmission services at rates, charges, terms, and conditions which permit the recovery by such utility of all the costs incurred in connection with the transmission services and necessary associated services, including, but not limited to, an appropriate share, if any, of legitimate, verifiable and economic costs, including taking into account any benefits to the transmission system of providing the transmission service, and the costs of any enlargement of transmission facilities. Such rates, charges, terms, and conditions shall promote the economically efficient transmission and generation of electricity and shall be just and reasonable, and not unduly discriminatory or preferential. Rates, charges, terms, and conditions for transmission services provided pursuant to an order under section 211 shall ensure that, to the extent practicable, costs incurred in providing the wholesale transmission services, and properly allocable to the provision of such services, are recovered from the applicant for such order and not from a transmitting utility's existing wholesale, retail, and transmission customers.".

(2) Subsection (e) is amended to read as follows:

"(e) SAVINGS PROVISIONS.—(1) No provision of section 210, 211, 214, or this section shall be treated as requiring any person to utilize the authority of any such section in lieu of any other authority of law. Except as provided in section 210, 211, 214, or this section, such sections shall not be construed as limiting or impairing any authority of the Commission under any other provision of law.

"(2) Sections 210, 211, 213, 214, and this section, shall not be construed to modify, impair, or supersede the antitrust laws. For purposes of this section, the term 'antitrust laws' has the meaning given in subsection (a) of the first sentence of the Clayton Act, except that such term includes section 5 of the Federal Trade Commission Act to the extent that such section relates to unfair methods of competition.".

(3) Add the following new subsections at the end thereof:

"(g) PROHIBITION ON ORDERS INCONSISTENT WITH RETAIL MARKETING AREAS.—No order may be issued under this Act which is inconsistent with any State law which governs the retail marketing areas of electric utilities.

"(h) PROHIBITION ON MANDATORY RETAIL WHEELING AND SHAM WHOLESALE TRANSACTIONS.—No order issued under this Act shall be conditioned upon or require the transmission of electric energy:

"(1) directly to an ultimate consumer, or

"(2) to, or for the benefit of, an entity if such electric energy would be sold by such entity directly to an ultimate consumer, unless:

"(A) such entity is a Federal power marketing agency; the Tennessee Valley Authority; a State or any political subdivision of a State (or an agency, authority, or instrumentality of a State or a political subdivision); a corporation or association that has ever received a loan for the purposes of providing electric service from the Administrator of the Rural Electrification Administration under the Rural Electrification Act of 1936; a person having an obligation arising under State or local law (exclusive of an obligation arising solely from a contract entered into by such person) to provide electric service to the public; or any corporation or association which is wholly owned, directly or indirectly, by any one or more of the foregoing; and

"(B) such entity was providing electric service to such ultimate consumer on the date of enactment of this subsection or would utilize transmission or distribution facilities that it owns or controls to deliver all such electric energy to such electric consumer.

Nothing in this subsection shall affect any authority of any State or local government under State law concerning the transmission of electric energy directly to an ultimate consumer.".

"(i) LAWS APPLICABLE TO FEDERAL COLUMBIA RIVER TRANSMISSION SYSTEM.—(1) The Commission shall have authority pursuant to section 210, section 211, this section, and section 213 to (A) order the Administrator of the Bonneville Power Administration to provide transmission service and (B) establish the terms and conditions of such service. In applying such sections to the Federal Columbia River Transmission System, the Commission shall assure that—

"(i) the provisions of otherwise applicable Federal laws shall continue in full force and effect and shall continue to be applicable to the system; and

"(ii) the rates for the transmission of electric power on the system shall be governed only by such otherwise applicable provisions of law and not by any provision of section 210, section 211, this section, or section 213, except that no rate for the transmission of power on the system shall be unjust, unreasonable, or unduly discriminatory or preferential, as determined by the Commission.

"(2) Notwithstanding any other provision of this Act with respect to the procedures for the determination of terms and conditions for transmission service—

"(A) when the Administrator of the Bonneville Power Administration either (i) in response to a written request for specific transmission service terms and conditions does not offer the requested terms and conditions, or (ii) proposes to establish terms and conditions of general applicability for transmission service on the Federal Columbia River Transmission System, then the Administrator may provide opportunity for a hearing and, in so doing, shall—

"(I) give notice in the Federal Register and state in such notice the written explanation of the reasons why

the specific terms and conditions for transmission services are not being offered or are being proposed;

"(II) adhere to the procedural requirements of paragraphs (1) through (3) of section 7(i) of the Pacific Northwest Electric Power Planning and Conservation Act (16 U.S.C. 839(i) (1) through (3)), except that the hearing officer shall, unless the hearing officer becomes unavailable to the agency, make a recommended decision to the Administrator that states the hearing officer's findings and conclusions, and the reasons or basis thereof, on all material issues of fact, law, or discretion presented on the record; and

"(III) make a determination, setting forth the reasons for reaching any findings and conclusions which may differ from those of the hearing officer, based on the hearing record, consideration of the hearing officer's recommended decision, section 211 and this section, as amended by the Energy Policy Act of 1992, and the provisions of law as preserved in this section; and

"(B) if application is made to the Commission under section 211 for transmission service under terms and conditions different than those offered by the Administrator, or following the denial of a request for transmission service by the Administrator, and such application is filed within 60 days of the Administrator's final determination and in accordance with Commission procedures, the Commission shall—

"(i) in the event the Administrator has conducted a hearing as herein provided for (I) accord parties to the Administrator's hearing the opportunity to offer for the Commission record materials excluded by the Administrator from the hearing record, (II) accord such parties the opportunity to submit for the Commission record comments on appropriate terms and conditions, (III) afford those parties the opportunity for a hearing if and to the extent that the Commission finds the Administrator's hearing record to be inadequate to support a decision by the Commission, and (IV) establish terms and conditions for or deny transmission service based on the Administrator's hearing record, the Commission record, section 211 and this section, as amended by the Energy Policy Act of 1992, and the provisions of law as preserved in this section, or

"(ii) in the event the Administrator has not conducted a hearing as herein provided for, determine whether to issue an order for transmission service in accordance with section 211 and this section, including providing the opportunity for a hearing.

"(3) Notwithstanding those provisions of section 313(b) of this Act (16 U.S.C. 825l) which designate the court in which review may be obtained, any party to a proceeding concerning transmission service sought to be furnished by the Administrator of the Bonneville Power Administration seeking review of an order issued by the Commission in such proceeding shall obtain a review of such order in the United States Court of Appeals for the Pacific Northwest, as that region is defined by section 3(14) of the Pacific Northwest Electric Power Planning and Conservation Act (16 U.S.C. 839a(14)).

"(4) To the extent the Administrator of the Bonneville Power Administration cannot be required under section 211, as a result of the Administrator's other statutory mandates, either to (A) provide transmission service to an applicant which the Commission would otherwise order, or (B) provide such service under rates, terms, and conditions which the Commission would otherwise require, the applicant shall not be required to provide similar transmission services to the Administrator or to provide such services under similar rates, terms, and conditions.

"(5) The Commission shall not issue any order under section 210, section 211, this section, or section 213 requiring the Administrator of the Bonneville Power Administration to provide transmission service if such an order would impair the Administrator's ability to provide such transmission service to the Administrator's power and transmission customers in the Pacific Northwest, as that region is defined in section 3(14) of the Pacific Northwest Electric Power Planning and Conservation Act (16 U.S.C. 839a(14)), as is needed to assure adequate and reliable service to loads in that region.

"(j) EQUITABILITY WITHIN TERRITORY RESTRICTED ELECTRIC SYSTEMS.—With respect to an electric utility which is prohibited by Federal law from being a source of power supply, either directly or through a distributor of its electric energy, outside an area set forth in such law, no order issued under section 211 may require such electric utility (or a distributor of such electric utility) to provide transmission services to another entity if the electric energy to be transmitted will be consumed within the area set forth in such Federal law, unless the order is in furtherance of a sale of electric energy to that electric utility: *Provided, however,* That the foregoing provision shall not apply to any area served at retail by an electric transmission system which was such a distributor on the date of enactment of this subsection and which before October 1, 1991, gave its notice of termination under its power supply contract with such electric utility.

"(k) ERCOT UTILITIES.—

"(1) RATES.—Any order under section 211 requiring provision of transmission services in whole or in part within ERCOT shall provide that any ERCOT utility which is not a public utility and the transmission facilities of which are actually used for such transmission service is entitled to receive compensation based, insofar as practicable and consistent with subsection (a), on the transmission ratemaking methodology used by the Public Utility Commission of Texas.

"(2) DEFINITIONS.—For purposes of this subsection—

"(A) the term 'ERCOT' means the Electric Reliability Council of Texas; and

"(B) the term 'ERCOT utility' means a transmitting utility which is a member of ERCOT.".

SEC. 723. INFORMATION REQUIREMENTS.

Part II of the Federal Power Act is amended by adding the following new section after section 212:

"SEC. 213. INFORMATION REQUIREMENTS. 16 USC 824*l*.

"(a) REQUESTS FOR WHOLESALE TRANSMISSION SERVICES.—Whenever any electric utility, Federal power marketing agency, or any other person generating electric energy for sale for resale makes a good faith request to a transmitting utility to provide

wholesale transmission services and requests specific rates and charges, and other terms and conditions, unless the transmitting utility agrees to provide such services at rates, charges, terms and conditions acceptable to such person, the transmitting utility shall, within 60 days of its receipt of the request, or other mutually agreed upon period, provide such person with a detailed written explanation, with specific reference to the facts and circumstances of the request, stating (1) the transmitting utility's basis for the proposed rates, charges, terms, and conditions for such services, and (2) its analysis of any physical or other constraints affecting the provision of such services.

Regulations.

"(b) TRANSMISSION CAPACITY AND CONSTRAINTS.—Not later than 1 year after the enactment of this section, the Commission shall promulgate a rule requiring that information be submitted annually to the Commission by transmitting utilities which is adequate to inform potential transmission customers, State regulatory authorities, and the public of potentially available transmission capacity and known constraints.".

"SEC. 214. SALES BY EXEMPT WHOLESALE GENERATORS.

"No rate or charge received by an exempt wholesale generator for the sale of electric energy shall be lawful under section 205 if, after notice and opportunity for hearing, the Commission finds that such rate or charge results from the receipt of any undue preference or advantage from an electric utility which is an associate company or an affiliate of the exempt wholesale generator. For purposes of this section, the terms 'associate company' and 'affiliate' shall have the same meaning as provided in section 2(a) of the Public Utility Holding Company Act of 1935.".

SEC. 725. PENALTIES.

16 USC 825n, 825o.

(a) EXISTING PENALTIES NOT APPLICABLE TO TRANSMISSION PROVISIONS.—Sections 315 and 316 of the Federal Power Act are each amended by adding the following at the end thereof:

"(b) CIVIL PENALTIES.—Any person who violates any provision of section 211, 212, 213, or 214 or any provision of any rule or order thereunder shall be subject to a civil penalty of not more than $10,000 for each day that such violation continues. Such penalty shall be assessed by the Commission, after notice and opportunity for public hearing, in accordance with the same provisions as are applicable under section 31(d) in the case of civil penalties assessed under section 31. In determining the amount of a proposed penalty, the Commission shall take into consideration

the seriousness of the violation and the efforts of such person to remedy the violation in a timely manner.".

SEC. 726. DEFINITIONS.

(a) ADDITIONAL DEFINITIONS.—Section 3 of the Federal Power Act is amended by adding the following at the end thereof: 16 USC 796.

TITLE VIII—HIGH-LEVEL RADIOACTIVE WASTE

SEC. 801. NUCLEAR WASTE DISPOSAL. 42 USC 10141 note.

(a) ENVIRONMENTAL PROTECTION AGENCY STANDARDS.—

(1) PROMULGATION.—Notwithstanding the provisions of section 121(a) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10141(a)), section 161 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2201(b)), and any other authority of the Administrator of the Environmental Protection Agency to set generally applicable standards for the Yucca Mountain site, the Administrator shall, based upon and consistent with the findings and recommendations of the National Academy of Sciences, promulgate, by rule, public health and safety standards for protection of the public from releases from radioactive materials stored or disposed of in the repository at the Yucca Mountain site. Such standards shall prescribe the maximum annual effective dose equivalent to individual members of the public from releases to the accessible environment from radioactive materials stored or disposed of in the repository. The standards shall be promulgated not later than 1 year after the Administrator receives the findings and recommendations of the National Academy of Sciences under paragraph (2) and shall

be the only such standards applicable to the Yucca Mountain site.

(2) STUDY BY NATIONAL ACADEMY OF SCIENCES.—Within 90 days after the date of the enactment of this Act, the Administrator shall contract with the National Academy of Sciences to conduct a study to provide, by not later than December 31, 1993, findings and recommendations on reasonable standards for protection of the public health and safety, including—

(A) whether a health-based standard based upon doses to individual members of the public from releases to the accessible environment (as that term is defined in the regulations contained in subpart B of part 191 of title 40, Code of Federal Regulations, as in effect on November 18, 1985) will provide a reasonable standard for protection of the health and safety of the general public;

(B) whether it is reasonable to assume that a system for post-closure oversight of the repository can be developed, based upon active institutional controls, that will prevent an unreasonable risk of breaching the repository's engineered or geologic barriers or increasing the exposure of individual members of the public to radiation beyond allowable limits; and

(C) whether it is possible to make scientifically supportable predictions of the probability that the repository's engineered or geologic barriers will be breached as a result of human intrusion over a period of 10,000 years.

(3) APPLICABILITY.—The provisions of this section shall apply to the Yucca Mountain site, rather than any other authority of the Administrator to set generally applicable standards for radiation protection.

(b) NUCLEAR REGULATORY COMMISSION REQUIREMENTS AND CRITERIA.—

(1) MODIFICATIONS.—Not later than 1 year after the Administrator promulgates standards under subsection (a), the Nuclear Regulatory Commission shall, by rule, modify its technical requirements and criteria under section 121(b) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10141(b)), as necessary, to be consistent with the Administrator's standards promulgated under subsection (a).

(2) REQUIRED ASSUMPTIONS.—The Commission's requirements and criteria shall assume, to the extent consistent with the findings and recommendations of the National Academy of Sciences, that, following repository closure, the inclusion of engineered barriers and the Secretary's post-closure oversight of the Yucca Mountain site, in accordance with subsection (c), shall be sufficient to—

(A) prevent any activity at the site that poses an unreasonable risk of breaching the repository's engineered or geologic barriers; and

(B) prevent any increase in the exposure of individual members of the public to radiation beyond allowable limits.

(c) POST-CLOSURE OVERSIGHT.—Following repository closure, the Secretary of Energy shall continue to oversee the Yucca Mountain site to prevent any activity at the site that poses an unreasonable risk of—

(1) breaching the repository's engineered or geologic barriers; or

(2) increasing the exposure of individual members of the public to radiation beyond allowable limits.

SEC. 802. OFFICE OF THE NUCLEAR WASTE NEGOTIATOR.

(a) EXTENSION.—Section 410 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10250) is amended by striking "5 years" and inserting "7 years".

(1) by striking "States," the first place it appears and inserting "States and"; and

(2) by inserting a period after "District of Columbia" and striking the remainder of the sentence.

SEC. 803. NUCLEAR WASTE MANAGEMENT PLAN.

42 USC 10101 note.

(a) PREPARATION AND SUBMISSION OF REPORT.—The Secretary of Energy, in consultation with the Nuclear Regulatory Commission and the Environmental Protection Agency, shall prepare and submit to the Congress a report on whether current programs and plans for management of nuclear waste as mandated by the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101 et seq.) are adequate for management of any additional volumes or categories of nuclear waste that might be generated by any new nuclear power plants that might be constructed and licensed after the date of the enactment of this Act. The Secretary shall prepare the report for submission to the President and the Congress within 1 year after the date of the enactment of this Act. The report shall examine any new relevant issues related to management of spent nuclear fuel and high-level radioactive waste that might be raised by the addition of new nuclear-generated electric capacity, including anticipated increased volumes of spent nuclear fuel or high-level radioactive waste, any need for additional interim storage capacity prior to final disposal, transportation of additional volumes of waste, and any need for additional repositories for deep geologic disposal.

(b) OPPORTUNITY FOR PUBLIC COMMENT.—In preparation of the report required under subsection (a), the Secretary of Energy shall offer members of the public an opportunity to provide information and comment and shall solicit the views of the Nuclear Regulatory Commission, the Environmental Protection Agency, and other interested parties.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out this section.
